

Recommendations Given In Full For Standard Hi School

Last week mention was made of the comments and recommendations contained in a letter to Supt. Tetz and the school board from Rex Putnam, superintendent of public instruction, following a survey made by Carrol B. Howe of the local high school. This week the letter is published in full for the benefit of school patrons of the county and of district No. 1 in particular. Other districts receiving similar reports may want them published and space will be made available to them. The letter, sans introductory features, is as follows:

A representative of the State Department of Education visited the Heppner high school on Wednesday, February 4, 1948, and spent most of the day in examination of the building, equipment, classroom instruction, and in conference with the principal and teachers. The following comments and recommendations are made as a result of this visit:

The school at Heppner offers a very complete educational program for a school of this size and provides an example of what can be done with an interested and progressive school board and a vigorous administration.

The method of providing visual materials, together with student operators, through the school librarian places the teachers in a position where they can use the materials to the greatest advantage. The fact that the librarian has nine hours of special training and time scheduled to do library work enables the school to derive much greater value from her services.

The cooperation of the city in providing an athletic field is another example of community interest in the school. The school, for reasons of safety, is located on a side hill and the play area is somewhat limited. The field, however, is located near the school and further improvements

Kinzuans Exceed Red Cross Quota In Current Drive

By Elsa M. Leathers

Kinza has far exceeded its quota for the Red Cross drive with Camp 5 yet to send in its donations, and some sections of Kinza yet to be canvassed. It

are contemplated.

The students at Heppner seem courteous and well behaved, the quality of instruction good, and the cooperation of administration and staff excellent.

The following features of the school are mentioned not because they are serious enough to cause the school to be considered non-standard, but to help in a program of improvement:

1. There is a need for more drinking fountains, both inside and outside. The number of shower heads should also be increased if possible. The present dressin grooms are being enlarged and improved. The gymnasium meets physical education requirements, but may not meet the needs of the community on such occasions as basketball games, plays and other activities. The school should own a horizontal bar to be used in physical fitness program for both elementary and high school students. The mats owned at present should be repaired.

2. Perhaps the only feature of the school which is non-standard is the biology laboratory condition. At present the course is taught in a room without the proper facilities to enable the students to do any laboratory work or conduct demonstrations in biology. Consequently, the course under such conditions becomes rather academic. When classes are the size of those in Heppner, the school would be justified in owning some type of microprojector such as a "Seescope" or "Rayoscope" which enables all students to observe a microscopic slide at once. This also enables all teachers to point out features which would be impossible under other conditions. It may be possible to schedule certain laboratory periods in the present science room. If this is done, the deficiency may be overcome. The school seems especially strong in mathematics and science, but a good biology course is a desirable feature.

It is the feeling of the State Department that the school at Heppner is very well administered. It was a pleasure to spend time in a school where things are running smoothly. The State representative wishes to thank the administration and staff for the reception and courtesies extended while in Heppner.

The Heppner high school will be rated as conditionally standard until such time as the laboratory provisions are made for biology. No plan will be required as the school will automatically become standard as soon as the condition is met.

Yours truly, Rex Putnam, Supt. Public Instruction, By Carrol B. Howe, Supervisor of Secondary Education.

OUR DEMOCRACY — by Mat

THE FIRST STEP

THE MOMENT WE SIT DOWN WITH OUR SEED CATALOGS OUR GARDENS BEGIN TO GROW. WHILE IN OUR MIND'S EYE WE SEE PLANTS IN LUXURIANT GROWTH, FRUIT HEAVY ON THE VINE — ACTUALLY WE ARE TAKING THE FIRST STEP IN MAKING A GARDEN.

THE FIRST STEP—PLANNING—IS IMPORTANT, BUT IN LIVING AS IN GARDENING, THERE IS MUCH WORK TO BE DONE BETWEEN THE PLANNING AND THE ACCOMPLISHMENT. WE SET A GOAL, FOR THE FUTURE SECURITY OF OUR FAMILY THROUGH LIFE INSURANCE AND SAVINGS, BUT TO REACH THAT GOAL TAKES WORK, SELF-DENIAL AND DETERMINATION.

is expected to at least double the quota.

A special joint meeting of the Legion and auxiliary of the Marshal Sargent post was held at Jeffmore hall Thursday evening.

Slip Wright, Joe Hays, Clay Phillips, John Mills attended the Masonic lodge at Heppner Friday night. Mills took a degree. Andrew Staig of Fossil also went.

Mr. and Mrs. Glodge O'Neil of La Grande were visiting here over the week end and were house guests of Mr. and Mrs. Stan Wright.

Mrs. Stuart Turner and infant son returned to their home from the Dalles hospital Sunday.

Mr. and Mrs. E. E. Pryor of Condon were visiting at their daughter's, Mrs. Chas. Johnson, here on Sunday.

Mr. and Mrs. Albert Freeauff and children moved to Portland on Monday, where Mr. Freeauff has taken a job driving a Greyhound bus. Dianne, the daughter that is in school, will stay with Mr. and Mrs. Kinard McDaniel until school is out.

S-2c Harry Johnson came to Kinza for his family from Vancouver, Wash. The family had been visiting here for three weeks with Mrs. Johnson's parents, Mr. and Mrs. Harvey Boyer. Mr. Johnson was on board the ship Gillian on a cruise for 20 days, and had only returned home this week.

Miss Ramona McDaniel is visiting her parents, Mr. and Mrs. Kinard McDaniel, through the spring vacation from Monmouth. She will also visit friends in Heppner.

Morris Wilson was attending to business in Kinza from Mayville, Sunday.

Mrs. John Mills and Mrs. Harlan Adams took Joe Schott to Moro Friday night to get his car. Mr. Schott went to Portland from there to receive medical attention for pine poisoning. Mrs. Schott is ill at her home here and was not able to make the trip with him.

Doris Jeter and friend, Johnnie Greene of La Grande, came over on Wednesday to spend spring vacation from Eastern Oregon college with Miss Jeter's family.

Jerry Rood was in Heppner on Saturday attending to business.

Mr. and Mrs. Owen Leathers Sr. were guests at a birthday dinner for Mr. and Mrs. Marvin Hine's daughter Ginger on Sunday evening.

The American Legion is sponsoring a smoker for the grade school boys trained by the grade school principal, Art Watson, on Monday evening. The results will be too late for this week's paper. The proceeds will go to purchase a projector for the grade school.

The Kinza boys are matched against the Mitchell grades.

Mrs. F. M. Harrison returned home from La Grande where she had spent the past week consulting a doctor.

Kinard McDaniel attended to business in Heppner Saturday and visited his parents at Hardman, Mr. and Mrs. Sam McDaniel Sr.

The navy recruiting officer was here on Monday and Perry

It's Being Done at Willow Run!

Kaiser-Frazer Introduces Four New 1948 Models

• The 1948 KAISER • The 1948 KAISER CUSTOM
• The 1948 FRAZER • The 1948 FRAZER MANHATTAN

AT NO INCREASE IN PRICE!

While Other New Car Prices Are Advancing

HERE'S WHY Kaiser-Frazer can make this announcement while other new car prices spiral upward. Kaiser-Frazer controls its own supply of many basic raw materials... has its own engine plant, foundry and steel mill. Materials from these sources funnel into new and modern Willow Run—the largest automobile manufacturing plant in the world under one roof.

Unfinished steel goes in one end of this great plant and comes out a quality automobile, ready to be driven away. All this is accomplished in a matter of hours, and with the economy of Kaiser-Frazer straight-line production. This is an achievement of men who are injecting new methods and ideas into an old industry.

In the new 1948 Kaiser, Frazer, Kaiser Custom, and Frazer Manhattan you get all the features

that others have attempted to copy since Kaiser-Frazer design was introduced in 1947.

So far no one has been able to more than approximate the graceful exterior body lines. No one has come near matching the roadability... the ride resulting from seats cradled between the front and rear wheels, such wide seats with both elbow and shoulder room. And none have the style features, the wide choice of colors and fabrics.

You get all this plus the many refinements made possible by years-ahead engineering and design. And, of course, all 1948 Kaiser or Frazer cars have the new Goodyear 24-pound pressure Super-Cushion tires that make bumps something you see but never feel.

Enjoy a ride today in America's newest new cars—the 1948 cars that have not gone up in price!

Wherever you drive, wherever you go, round the corner, down the street, there is a Kaiser-Frazer dealer ready to serve you with genuine factory parts and approved service.

We Invite You to SEE, DRIVE and COMPARE Them, Today!

4,000 More "Tailors" for Reddy Kilowatt

When Reddy Kilowatt comes shooting across the country on those big PP&L transmission lines he's 69,000 volts strong. Before he can be used in your home he has to be "tailored" down to 120 or 240 volts to fit your needs. A transformer acts as the tailor. This year PP&L plans to install more than 4,000 transformers. Some of them—the big transmission type—will cost as much as \$100,000 each. Our 1948 construction budget is the largest in history.

THIS GROWING REGION USES MORE AND MORE OF PP&L'S CHEAP ELECTRICITY!

Electric rates here are the lowest in history—less than half the national average
