NOTICE TO CREDITORS
Notice is hereby given that the undersigned has been duly appointed by the County Court of Morrow County, State of Oregon, Executor of the Estate of OTIS BIDDLE, deceased, and all persons having claims against the estate of said deceased are hereby required to present the same with proper vouchers duly verified as required by law to the said executor at the law office of P. W. Mahoney at Heppner, Oregon, within six months from the date hereof.

Dated and first published this 25th day of March, 1948.
ALICE ELEANOR BIDDLE,
Executrix of the Estate of
Otis Biddle, Deceased.
P. W. MAHONEY, Attorney for the
Executrix, Heppner, Oregon.

NOTICE OF SCHOOL ELECTION IN THE RURAL DISTRICT OF MORROW COUNTY, OREGON, UPON QUESTION OF INCREASING TAX LEVY OVER AMOUNT LIMITED BY SECTION 11, ARTICLE XI, STATE CONSTITUTION.

Notice is hereby given that an election will be held in Morrow County, Oregon, in all competent school districts of said Rural School District. The election will begin at 2:30 P. M. and will be held in the schoolhouse in each of said competent districts. The purpose of the election is to submit to the legal voters of the rural school district the question of increasing the tax levy for the fiscal year beginning July 1, 1948, over the amount limited by Section 11, Article XI of the Constitution.

The reasons for increasing such levy are: The combined levying bases of all school districts in the county amounts to but \$10,641. The required tax levy for all school districts of the county is \$70,433.46. The difference between the required levy and the base levy is \$169,592.16.

The amount of tax, in excess of the six per cent limitation proposed to be levied by the rural school district of Morrow County, Oregon, for the fiscal year beginning July 1, 1948, is \$169,592.16.

Dated this 22nd day of March, 1948.
J. J. NYS,
Chairman, Rural School Board.
Attest: LUCY E. RODGERS,
Secretary, Rural School Board.

SPECIAL SCHOOL MEETING

NOTICE IS HEREBY GIVEN, in compliance with Sec. 111-908, O.C.L.A., to the legal voters of School District No. 1 of Morrow County, State of Oregon, that a SPECIAL SCHOOL MEETING of said District will be held at CITY HALL, on the 29th day of April, 1948, at 1:30 o'clock in the afternoon, for the following objects: To vote upon the proposed tax levy for all of the school districts of the county.

Dated this 22nd day of March, 1948.
J. J. NYS,
Chairman Board of Directors,
Morrow County Rural School District.
Attest: LUCY E. RODGERS,
District Clerk, Morrow County Rural School District.

NOTICE OF SALE OF COUNTY PROPERTY

BY VIRTUE OF AN ORDER OF THE COUNTY COURT, dated March 24, 1948, I am authorized and directed to advertise and sell at public auction at not less than the minimum price herein set forth:

Lots 1 to 3 inc. and lots 20 to 22 inc. in Block 15 of Irrigon, Oregon, for the minimum price of \$30.00, cash.
Lots 12 to 23 inc. and Lots 24 to 26 inc. in Block 25 of Irrigon, Oregon for the minimum price of \$50.00, cash.
Lots 20 to 23 inc. and Lots 30 to 36 inc. in Block 27 of Irrigon, Oregon, for the minimum price of \$50.00, cash.

THEREFORE, I will on the 24th day of April, 1948, at the hour of 10:00 A. M., at the front door of the Court House in Heppner, Oregon, sell said property to the highest and best bidder.

C. J. D. BAUMAN, Sheriff,
Morrow County, Oregon.
FRANCES MITCHELL,
Deputy.

FRANK ANDERSON FIELD

In contrast to the many scarred fields in Morrow county, washed and gullied during the past winter, this field on the Frank Anderson ranch at Eightmile is evidence of practically complete erosion control by strip cropping.

These contour strips of wheat, summer fallow and crested wheat grass, along diversion ditches to carry off the excess water safely from the field, were established in 1938 through the cooperative effort of the Soil Conservation Service and the Extension Service.

Anderson states that he would have been forced to discontinue farming this field, due to severe gullying and washing, if striping had not been established. To help retain the soil of Mor-

News From C. A. Office

Interest in weed control is running high this past week and many farmers who had not intended to spray or dust annual weeds are now planning to do so. Those farmers who have been working on booms and spraying equipment during the winter months are prepared to begin work.

Today (Wednesday) the weather is ideal for applying 2,4-D and it appears as though many farmers will get started to spray and dust this week if the weather continues to be favorable. Warm growing weather is most favorable for the fastest and most efficient kill of annual weeds.

Several farmers have applied spray and dust with effective results, even though we have had no favorable days for application. Vernon Munkers, Lexington, is the first farmer that I know of to apply 2,4-D. The first application was made on March 5 with very good results obtained after several observations of the fields treated. This sprayer, with 40-foot boom, was adapted to the job by a group of Social Ridge farmers including besides Mr. Munkers, Kenneth Peck, Bill Van Winkle, and Roy Campbell and sons. This machine had sprayed approximately 600 acres by Monday, March 22. Other farmers who the agent has observed spraying or dusting with 2,4-D are Julian Rauch, Nelson Brothers, J. C. Ransier, Bill Seehafer, Lawrence and Kenneth Palmer, and Ralph Beamer. Undoubtedly others are or have sprayed or dusted the past week.

A few reminders on spraying and dusting are timely. (1) In spraying, it is recommended that

application be made at the rate of 10 gallons of water per acre. (A gallon or two one way or the other will not harm as long as the proper amount of 2,4-D is being applied.) (2) A pint of the ester 2,4-D is to be applied per acre. At least a pint per acre should be applied regardless of the amount of water being used, per acre. Comparison of fields sprayed with one pint and with one and one-half pints of ester 2,4-D have shown equal kill. If tarweed is the major weed and is advanced in growth, one and a half pints are recommended. (3) In applying dust, 15 pounds of a 5 percent ester dust is being recommended. (4) Booms for spraying or dusting should be set at a height above the weeds for proper coverage. All weeds should be covered for most efficient kill. A canvas shroud over the boom will prevent excessive drift of dust and spray, especially if applied in a strong breeze.

Farmers who are just getting equipment in readiness for applying 2,4-D should keep these points in mind. There is plenty of time to apply the 2,4-D so do not hurry into the job with improper equipment. Charts for determining rates of application at different speeds with varying spacing of nozzles and sizes by pressure applied are available at this office. Drop in and talk your spraying problems over!

Many farmers have called at this office for information on Mormon cricket control. A survey of the cricket infested area by Robert Every, extension entomologist, Oregon State college, and the County Agent was made last Friday. It was found that the crickets were hatching in large numbers. The central mixing station is being completed at Boardman with baiting by bureau of entomology planned to begin this week.

Since control program funds are short this year and the infestation area is much larger it will be necessary for considerable baiting by individuals. It is estimated that there are 7,500 acres of severely infested land in Morrow county this year.

Many farmers wish to bait and we suggest that bait broadcasters be built or purchased by those in infested areas. Plans for the USDA bait broadcaster are available at this office, as are the addresses of companies who sell bait broadcasters. These are available at prices ranging from \$150 without motor to \$325 with motor.

Throw aside that seed catalog; get busy outdoors. You will be eating radishes out of your own garden by latter May if you get that early garden planted now.

R. Ralph Clark, O.S.C. extension horticulturist, has flashed the green light. Go ahead, it is now time to plant, barring a word to the contrary from the weatherman.

What to plant? Clark has whipped up an early garden recipe suited for Oregon. If there are four in your family, plant a 25 foot row of radish seed; 10 feet of lettuce; 50 feet of spinach; 100 feet of peas; two dozen early cabbage plants; three hills of rhubarb; 12 hills of asparagus plants and 50 onion sets.
