Joseph Edward Musgrave was born August 15, 1875 at Colfax, Indiana. He became a resident of Morrow county in 1908, first settling in Burton valley and in later years moving to a small farm on lower Rhea creek where he lived until a few years ago. He was married December 23, 1899 to May Snyder and to this union the following children were born: Gladys, Seio; Chester, Baldwin Park, Cal.; Elmer, Hamilton; Dolly Thurlow, Rensselaer, Ind.; Iris Hamilton, Watsela, Ill.; Earl and Carl, Kokomo, Ind., all of whom survive. Rural Telephone Lines Reliving

Patrons of the rural telephone lines running each from Heppner up Hinton creek and into the Butter creek district have reorganized and are preparing to reconstruct the lines. Coming of the REA service into the county necessitates reconstruction, on the one hand, and the fact that the lines were getting in a bad state of disrepair is another good reason.

New poles, wire and other equipment are due to arrive in Heppner today, and a contractor will come from Milton April 16 to start the construction work.

Hall Dedication Exercises Attract Motley Throng

Floor space was at a premium Saturday evening when people of this and neighboring communities and many from outside points gathered at the American Legion hall to attend dedication exercises and to enjoy the dancing that followed. If this particular event was a criterion, the Legionnaires may look forward to many happy occasions in their home which has inspired praise and compliments from every direction.

C. J. D. Bauman was master of ceremonies and kept a running fire of witty yarns in introducing officers, visitors, and even part of the program. The sheriff's face grew very red, however, when later it was found that he had overlooked some of the members of the post who had taken a prominent part in the work on the hall. He was particularly chagrined to discover that he had not mentioned Earle Gilliam, one of the oldest members of the post, who did the plumbing—one of the most important bits of work in any modern building.

Billy Cochell's trumpet trio and girls sextet from the high school, songs by Billy Kenny and trombone solos by Cochell, made up musical part of the program. Willard Blake, commander, made the dedication, and Pete Pinney, deputy district commander, delivered the dedication speech.

When the dedication program was over the floor was cleared of chairs and the Rimrocker from Monument took over and kept the crowd tripping the light fantastic until a late hour.

Wheat Contracts In County Covered By FCI Total 141

Contracts covering wheat insurance carried under the federal crop insurance program total 141 in Morrow county this year, states N. C. Anderson, county agent. That figure has been released by Muri E. Cummings, Portland, state director of federal crop insurance corporation, who adds that for the 1947 wheat crop year losses paid by the corporation totaled 323 percent of premiums collected in Morrow county. Much of the loss, Cummings points out, was a result of the early season hail storm which totally wiped out several county wheat holdings.

Last year, in fact, of 144 policies covering 71,422 acres of wheat, 81 losses were paid. In the seven years in which federal wheat crop insurance has been in force in Morrow county, losses have averaged 60 percent of premiums collected. In 1943, no losses were reported or paid. According to figures released by the U. S. department of agriculture, wheat yields have averaged 15.6 bushels per acre for the 18-year period ending with the 1946 crop, Anderson states. In Oregon last year, wheat insurance losses averaged 96 percent of all premiums collected. This year, federal wheat crop insurance is being carried in only five Oregon counties. They are, in addition to Morrow, Gilliam, Sherman, Umatilla and Union. Policies total 703 for the five counties.

Month Of March Brought Moisture

March, the unpredictable month, treated this region quite decently so far as moisture is concerned. What with snow, rain, hail, tapioca and all the other brands of moisture-laden pellets that fall from the sky, a total of 136 inches was the precipitation record for the month. This was recorded at the Leonard Carlson farm in Gooseberry and may or may not have been the county average.

Weather conditions since the first of April have been no improvement over the March brand and on Friday morning, April 2, Carlson reported 50 of an inch as the result of Thursday's precipitation.

City Confronted With Problem Of Sewage Disposal

Town Dads Con Plans, Methods of Financing System

Mayor Conley Lanham and members of the city council are confronted with a task in providing a sewage disposal system that is causing the figurative town brow to wrinkle. This was evident Monday evening when tentative plans were presented for study and discussion.

Several interested property owners were present and expressed their views relative to trunk lines crossing their respective places and while acknowledging the need for a sewer system and a desire to cooperate they at the same time raised and sustained objections to some of the plans. These details will have to be worked out before the council can prepare definite plans and submit them to the taxpayers for approval.

Estimated cost of the project is \$277,000 plus, of which amount the city can account for approximately \$50,000 on hand. A bond issue will be necessary to cover the balance. Construction of three trunk lines and numerous laterals, as well as a disposal plant, is contemplated.

It was stated at the meeting Monday evening that the city has no alternative—either set about to build the system or have the state do it at local expense. Garnet Barratt announced that he is ready to do some terracing on lots north of the Glenn Parsons place on North Gilmore street and asked permission of the city to put excess dirt on Gilmore street on that portion extending along the upper part of the block from the Van Horn place to the Brown residence. This is a dedicated street. Permission was granted.

L. D. Neill asked the city to deed the lot on which Pete Prophet's house is located to Mr. Prophet so he can sell the property. So ordered.

Building permits were issued to Charles Stout, Nels Justus, A. L. Casebeer and James Farley. An alley between blocks 2 and 3 for which the city has no use was ordered vacated. The street committee reported installation of six new lights and the changing of all back street lights to 2 1/2 times their former strength. The proposed street through the Brown addition has been abandoned, according to the street committee.
