If We Had A Favorite . . .

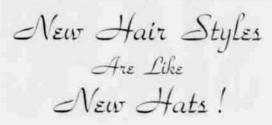

If we had a favorite campaign fund we think it would be the current drive in behalf of the American Cancer Society. With evidences of the ravages of cancer on every hand-it is the No. 2 killer-it seems if one had to choose between the several funds for which we are solicited throughout the year it would be easier to subscribe to this particular campaign.

Somehow it doesn't seem that a house-to-house campaign should be necessary to raise the tentative quota assigned to Morrow county. If each and every family and individual were to give something there would be no need of putting pressure on those upon whom we look as "money ed" folks. What do you say we try this plan and put this drive over without any kind of pressure selling. Send in your gift to the county chairman, Merle Becket, and help him clear up the drive before this month is gone.

Those who had the privilege of hearing Mrs. Lois Beil Sandall Saturday evening deeply regret Devin and John F. Vaughn that many more of our citizens were not accorded the same privilege. It is seldom that a town the size of Heppner can command recognition from size of Heppner can command recognition from south of Heppner. She leaves her one of Mrs. Sandail's stature and those within the husband, Hardy Long, and six range of her cultivated voice Saturday evening feel decidedly fortunate, for she is one of the outstanding women of the country and one who council and advice are sought in high places.

From where I sit ... by Joe Marsh Now It's Neckties

Fellow in Andy Botkin's Tavern was hoasting about a trick necktie he was wearing made out of a byproduct of milk. "Took 33 pounds of milk to make this tie," he says.

Bill Webster was unimpressed. "Personally," he says, "I'd rather have the milk to drink. Just as I wouldn't change one glass of good American beer for a recktie made from thirty barrels of it!"

Yes, modern science being what it is - seems like you can make "anything out of anything" these days. But in the case of milk, well

I guess drinking it is still a whole lot better than just wearing it.

Made of Milk!

Of course there are lots of other ways of abusing goods and beverages-like a fellow who doesn't appreciate good beer enough to drink it slowly and in moderation.

But from where I sit, most people who enjoy a wholesome beverage like beer or ale are moderate -because beer itself is a beverage of moderation.
