From where I sit... by Joe Marsh

Sam's Hens Wear Spectacles!

Yes, it's a fact! Sam's brood of two dozen hens are wearing spectacles—which he bought from a mail-order house in Capitol City.

Sam says it works (and big poultry raisers say so, too). The hens see each other through soft colored glasses, and instead of fighting and picking at each other, they go around placidly, gain weight, and lay more eggs.

Makes me almost wish we could have rose-colored glasses for human beings, too. So that instead of quarrelling and criticizing, like we

do so much of the time, we'd live and let live in contentment.

From where I sit, the human race wastes a powerful lot of time in wrangling over minor issues... whether a man should drink beer or cider... whether a woman should wear slacks or skirts... instead of seeing each other through "spectacles" of tolerance that enable us to live-and-let-live like Sam's brood of chickens.

Here's why we say WOMEN CAN GO PLACES IN THIS BUSINESS

- This is a story of a typical Pacific Telephone "career girl." She started as an operator back in the thirties... a good job then, even better now. Today most new operators just out of high school average better than \$35 a week when they start handling calls and many experienced operators earn \$50 a week.
- She was promoted to supervisor after a few years. Training new girls was an important part of the job... for Pacific Telephone was growing. She enjoyed vacations every year... with pay, of course. And she joined in many local telephone activities. Found telephone people friendly and sociable... on or off the job.
- She's a chief operator now supervising 70 women... her responsibilities and experience help determine her salary of \$4,500 a year. Many "chiefs" earn more. Two-thirds of our people are women—hundreds have management jobs—five are assistant vice-presidents. Yes, women can go places in this business.
- Telephone jobs must be good jobs to attract the capable people needed to furnish service. Good pay, steady work and an employee benefit plan give a strong sense of security. Comfortable surroundings, vacations and friendly fellow workers help make work pleasant.

KEEP EARL T. NEWBRY FOR Secretary of State

Earl T. Newbry's past record as a legislator reveals that he works just as hard at the public's business as he has at his own.

He works just as hard to produce the maximum from the public's dollars as he did in making a record as a successful orchardist, business and civic leader.

For better government's sake, keep Earl T. Newbry Secretary of State.
