One frame builgind known as the "Old Feed Mill" located at Lexington, Oregon.

All bids must be mailed or presented to the undersigned Morrow County Grain Growers, Inc., at Lexington, Oregon not later than two o'clock p.m., June 1, 1948.

Dated this 6th day of May, 1948.

MORROW COUNTY GRAIN GROWERS, INC.,

By Werner Rietmann, Secretary

An Open Letter To The Republican Voters Of Morrow County

In furthering my candidacy for the office of Morrow County Judge I would take this means of visiting with you, who will in a few weeks, nominate one of three candidates for a very important county office. I wish to also direct my remarks to all those residents and taxpayers who are shareholders with you in an incorporate unit of government conservatively assessed at over 12 million dollars. I am thinking of Morrow County, the management of its affairs, its present and future welfare.

Saturday

Evening

As residents of the county it is your duty to elect from time to time a managing body to represent you in administering the business affairs and public welfare. This is the Morrow County Court and is composed of three members, one of which is the County Judge, and two commissioners, who act as the governing body of the county and are directly responsible to you and their oath in fulfilling their responsibility. When they assume the oath of office they accept a huge responsibility in not only directing its business affairs but in keeping its public relations and esteem high within the councils of the state and nation. The office of County Judge should take an active lead in upholding his oath: "To serve the best in-terests of the county." In doing this he must have the able and willing assistance of the two commissioners who are elected to assist and advise him and who have an equal vote in directing county business. They are subject to call at any time and are paid on a per diem basis from public funds. The office of Judge is paid a yearly salary and should be considered a full time job in Morrow County. It is his sworn duty to take an active lead in planning, promoting, supervising and publicizing all those interests that have a direct bearing upon the welfare of all the county and its citizens. In addition to serving with the Commissioners as a managing board he is the Judge of the Jevenile Court, the Probate Court and a member of the County Welfare Commission, which directs the Old

Age Assistance, General Assistance and Dependent Children programs in Morrow County. As the member of other important boards within the county and state he has to act with impartiality and with wisdom. Being County Judge of Morrow County can be considered a full time position.

In presenting myself for nomination and election to this important office I do not consider that I am the perfect answer to the taxpayers' and voters' prayer. Nor do I expect to please all in the administration of its affairs. In a pre-election statement I make but one promise: "I will make every effort to uphold my oath of office." But in assuming this oath it will bind me to the performance of, "Serving the best needs of the County to the best of my ability," which the oath implies. In fulfilling this oath I MUST give "value received" service. I sincerely and emphatically believe I am qualified to do this. I have disposed of the major portion of my business interests, which I have been closely connected with the last thirty years. I like public service but do not consider myself a "politician." I like to associate with and meet on common ground my fellowmen. From them I have gained a wealth of human understanding. Have been a heavy taxpayer for many years and know that taxes are essential, but believe they should be fairly distributed. With the encouragement and financial assistance of the taxpayers our road system must be rebuilt. This will necessitate a well planned and financed program. I believe that with close supervision and careful planning this can be done without squandering public funds. I will be most careful of public expenditures, but do not believe in "penny wise and pound foolish methods."

Thanking you for your kind consideration in reading this. If you think I am qualified to serve you as County Judge for the six year term a vote for me at the May 21, 1948 Primary Election would be appreciated.

Sincerely, J. G. BARRATT

who gets squeezed

Union leaders representing less than one-tenth of railroad employes reject recommendations of President's Emergency board-refuse to negotiate except on their own terms—threaten to paralyze nation by strike!

THE LEADERS of three railroad unions, representing less than one-tenth of all railroad employees, have called a railroad strike that would paralyze the nation.

These leaders refuse to accept a 15½ cents

These leaders refuse to accept a 15½ cents an hour wage increase retroactive to November 1, 1947. This increase was recommended by an impartial Emergency Board appointed by President Truman.

This increase of 15½ cents already has been accepted by the 19 other railroad unions. But the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Switchmen's Union of North America won't accept what more than 90% of all railroad employes have accepted. They have called a strike to get more!

Unions refuse rules discussion Certain rules changes demanded by these union leaders—which would increase wages still further—were recommended by the Board. But the union leaders want more-they demand that the railroads put into effect ALL the changes they asked for, including those the Board felt should be denied.

On top of this, they insist that certain rules changes proposed by the railroads be withdrawn—in spite of the fact that the Board recommended them! These union leaders have refused to negotiate except upon these architecture terms.

Greater wage increase not justified Engineers and firemen are among the high-est paid of all employes in America, as figures in the box show. This strike threat doesn't justify giving a greater increase than other railroad workers received.

Emergency Boards are a means provided by the Railway Labor Act in the public inter-est to avoid strikes. The President's Board,

after hearing evidence for 33 days, made recommendations based on all the facts in the case. The railroads have accepted these

Who's to blame?

Although they deplored so large an extra cost burden, the railroads accepted the report of the Board because they felt it was in the pub-lic interest to uphold the spirit and intent of the Railway Labor Act.

In contrast, this small group of railroad union leaders are attempting to flout the intent and spirit of the Railway Labor Act, and dictate their own terms.

They have dictated a paralyzing railroad strike. You will be the victim!

How long will the American public stand for the undemocratic, arbitrary, and abusive use of the right to strike and the disregard of the obligation to provide transportation? How long can the American people permit a few dictatorial union leaders to defy the processes provided for peaceful settlement of disputes?

Force seldom produces settlements that are either fair or lasting. Moreover, a point is often reached when personal interests must be held subordinate to the greater public welfare. That is why the railreads have accepted the Emergency Board recommendations. That is also why the leaders of these three unions should reconsider their decision to call a paralyzing strike.

Comp	are these wag	es with what y	ou make!
