The War Department expended \$36 million for an Inter-American Highway in Central America as a war project without contributing to the defense of the U. S. Indeed our war effort was hampered by the diversion of vast quantities of construction equipment, road materials, construction manpower and shipping in 1942 and 1943 when we were facing shortages on all sides and the universal cry was "too little too late."—Congressional Committee report. Politics makes strange postmasters. day, which continued all day and into the night, followed with sunshine Monday.

**BURNING PERMITS REQUIRED**  
Burning permits will be required during the period May 15 to December 31 for burning grass, stubble or any debris. These permits can be obtained from the state warden at Kinzua or forest office in Heppner. Permits can be issued for 10 days during periods of low fire hazard. When the fire hazard increases it may be necessary to prohibit all burning. It will not be necessary to secure a burning permit if the area is adequately protected and not within 1.8 mile of forest land. But any such burning which results in a fire escaping and damaging other private property will be considered in violation of state law.

**Jeb Had the Folks in Stitches!**  
At the Friday Night Social, Jeb Crowell had the audience in stitches—doing a take-off on the blustering character who belittles everybody and everything that isn't from his own home town. In our town, for instance: Some folks like hand concerts, others don't—some families serve beer with dinner, others, buttermilk—and as for politics, there's plenty of healthy disagreement. Well, we can laugh at that sort of character because from where I sit, Americans are just the opposite. We like to boast a bit perhaps, about the paint job on the new barn, or the missus' style of cooking—but we aren't intolerant of people who don't think or act exactly the same way we do.

## NOW — Medical and Hospital Care at Modest Cost. 2 Plans... use coupon

The Oregon State Medical Society — through its sponsored and approved Oregon Physicians' Service — now offers to employed residents of the state and to their families prepaid medical and hospital protection at reasonable cost.

**Two Plans are Available**  
Both are developments of O.P.S. employe group contracts under which some 70,000 Oregon workers have had protection for several years. The new contracts are backed by experience and professional responsibility. More than 500 physicians and surgeons belong to O.P.S. — in excess of 90% of medical society affiliated doctors in Oregon.  
Under either of the plans you select there is a wide choice of cooperating physicians, surgeons and hospitals.  
For literature and application blank please send coupon to your nearest O.P.S. office.

Note: O.P.S. group coverage is still available. If you and fellow employes wish the savings that are possible under a group policy we will furnish information gladly.

**PLAN 1. MEDICAL, SURGICAL AND HOSPITAL** coverage for the employed individual — \$3.50 per month.  
SURGICAL, LIMITED MEDICAL and HOSPITAL coverage for families — spouse, \$2.00 per month; 1st child, \$1.25 per month; 2nd child, 75 cents per month; 3rd child, 50 cents per month no charge for additional children.

**PLAN 2. SURGICAL, LIMITED MEDICAL AND HOSPITAL** coverage for the employed individual — \$2.25 per month. SURGICAL, LIMITED MEDICAL and HOSPITAL coverage for families — same as Plan 1.

These plans are available in most Oregon counties to employed individuals whose net taxable income does not exceed \$5,000 per year.

## 13,000 "Time-Clocks" for Reddy

Reddy Kilowatt always punches a "time-clock" to record exactly how long he works for you. His time-clock is the electric meter. Periodic checks show that PP&L meters are far more accurate than the average watch. This year, PP&L will make more than 13,000 new meter installations, primarily to new customers. The company's 1948 construction program is the largest in history... to keep pace with demand for its low-cost electricity.

**THIS GROWING REGION USES MORE AND MORE OF PP&L'S CHEAP ELECTRICITY!**  
Electric rates here are the lowest in history—less than half the national average

## "He's doing a GOOD Job"

## "WORLD'S LONGEST SPEAKING TUBE"

now pipes calls East

1. Imagine packing 500 voices together in a tube no bigger than a pencil and sorting them out distinctly at the end! That's what we're doing with coaxial cable. Radio-type waves whisk calls through pipes... instead of on wires...allowing one "co-ax" to do the work of a number of the more usual kinds of long distance cable.

2. We plant "co-ax" with giant plows that lay the cable in one operation. Every eight miles a "booster station" keeps calls going through clearly. For— incredible as it seems—high frequency waves fade so rapidly in the cable that all the sun's energy, if it could be funneled into the pipes, would not carry half-way across the country.

3. "End of the line"...it takes huge panels of complex equipment like this to sort out the calls carried by just one cable. Since December, calls have been going back and forth from the Coast to the East over 2300 miles of "co-ax." And we're adding still more cables to augment long distance service for the growing telephone population on the Coast.

Millions of new working dollars, needed to extend and improve service, must come—not from telephone bills—but from thousands of people who put their savings to work in the telephone business. To attract these working dollars, we must pay a reasonable amount for their use. We can do this only if we sell our services at fair and adequate prices.
