Nicholson, deceased, and has accepted such trust. All persons having claims against said estate are hereby required to present the same with vouchers attached to the administratrix, at the office of J. O. Turner in Heppner, Oregon, within six months from the date of this notice. Dated and first published this 8th day of July, 1948.

EDITH P. NICHOLSON, Administratrix.

NOTICE OF SALE OF ESTRAY

Pursuant to the statute regulating the sale of estrayed animals I will, on Saturday, July 24, 1948 at the hour of 10 a.m., sell at public sale at my place three miles southwest of Boardman, Morrow County, Oregon, the fol-

lowing described and hitherto advertised animal: One sorrel filly, 2 years old, no visible brand. Said animal to be sold for cash in hand and subject to the right of redemption by the original owner.

Pete Slevin, Boardman, Ore. 16-18c

NOTICE OF SALE OF COUNTY PROPERTY

BY VIRTUE OF AN ORDER OF THE COUNTY COURT, dated July 8, 1948, I am authorized and directed to advertise and sell at public auction at not less than the minimum price herein set forth:

NE 1/4 of Sec. 30, Twp. 2 N., Range 24 E.W.M. for the minimum price of \$240.00, cash.

THEREFORE, I will on the 14th day of August, 1948 at the hour of 10:00 A.M., at the front door of the Court House in Heppner, Oregon, sell said property to the highest and best bidder.

C. J. D. BAUMAN, Sheriff, Morrow County, Oregon, FRANCES MITCHELL, Deputy.

Price supports on the 1948 crop of wheat will average \$2.00 a bushel at farm level, E. Harvey Miller, chairman of the Oregon state PMA committee, has announced. Last year's rate was \$1.84 per bushel. Wheat must grade No. 3 or better, or No. 4 or 5 because of test weight only, in order to be eligible for loan or purchase.

Terminal wheat loan rates per bushel for 1948 crop, No. 1 soft white stored in eligible warehouse storage at Portland is \$2.19 per bushel. Premiums and discounts will be the same as under the 1947 program.

This \$2.00 price support represents a 90 percent of the \$2.22-a-bushel parity figure as of July 1, the beginning of the marketing year. This increase in wheat parity on July 1 of this year over

the parity figure of \$2.04 a bushel on July 1, 1947, is a measure of the rise in prices paid by farmers for commodities used in production and farm family living. Interim loan rates, offered by the department of agriculture last May to protect growers of early-harvested wheat, were based upon the April 15 parity figure, \$2.20 a bushel.

The Morrow county loan rate is \$2.02.

Morrow county farmers would do well to be considering the control of granary insect pests such as the weevil and bran bug. There are plenty of these that can dig a hole in the grain check. With moisture conditions in our wheat as it is, this makes it doubly important that granaries be cleaned up before putting in the new crop. These insects like moist grain and multiply rapidly in bins where "tough" grain is stored. Insects need warmth and moisture to develop. Moist grain heats!

Some suggestions for preventing the damage are: Thoroughly clean the granary, making sure that all grain is swept out from cracks and crevices. These stray kernels are usually the beginning of the bug infestation. Spray the inside of the clean granary with a 5% DDT oil solution. Two gallons of spray should cover about one thousand square feet of wall or floor.

Pigs cannot be grown and fattened economically on grass alone. When fed a limited concentrate ration, however, pastures save as much as one-fourth of the grain ration and one-half of the protein supplement ordinarily fed to hogs.

Plans may now be developed for a 1949 Agricultural Conservation program offering farmers almost twice as much assistance for conservation practices as was available under this year's program.

For the current fiscal year, the agricultural department appropriation act sets aside \$150 million for the 1948 program, including administrative expenses. This was the amount congress authorized last year for developing the 1948 program. Congress this year has authorized the development of a 1949 program amounting to \$262.5 million.

Other items in the appropriation act include: Soil Conservation Service, \$45,048,000; Farmer's Home Administration production and subsistence loans, \$75 million; Rural Electrification Administration loans, \$400 million; Research and Marketing Act of 1946, \$13,850,000; School Lunch Program, \$75 million.

Washington Week

By CHARLES L. EGENROAD Washington, D. C.—Governors Tom Dewey and Earl Warren, who form the Republican "ticket of presidents," will find their campaign dove-tailing perfectly with the Congressional campaign this year because of the foresight of Herbert Brownell, Jr., former national Republican Chairman and Gov. Dewey's political manager.

On December 8, 1945, in a speech before the Republican National Committee in Chicago, then Chairman Brownell outlined a Republican program which was carried to victory in the 1946 Congressional elections.

Under the title of "The People Must Choose," Mr. Brownell laid down "a Republican creed."

"We believe in an honest and workable relationship between industry and labor."

The Republican Congress elected in 1946 enacted the Taft-Hartley law which has been accepted as a means of creating a "workable relationship between industry and labor."

Mr. Brownell's Republican creed continued:

After the grain is in storage, inspect it frequently. If it becomes infested with bugs it must be fumigated for insect control. There are a number of fumigants recommended, one of which is a mixture of ethylene dichloride and carbon tetrachloride. And lastly—don't expose yourself to the fumes. They are meant for the bugs!

"We shall insist that our international relations shall be conducted in conformity with the American Constitutional system... there shall be no secret commitments which may cost millions of lives and billions of dollars... We will carry out our present commitments to give whatever measure of relief we can to prevent suffering and starvation in the nations devastated during World War II, but let us insist that American money and American food and American clothing shall not be utilized by other nations to promote their own selfish power-politics."

"We believe that American security demands the maintenance of armed forces in all categories sufficient to defend this nation against any aggression."

The record of the 80th Congress shows each of these legislative steps has been taken.

What is needed now is an executive team that will administer the laws in the spirit in which they were passed.

Now is the time to start digging for fall business. Advertising seed planted now reap dividends after the harvesting season.

How to make a telephone grow. 1. If your telephone grew in size as the system serving it grows, it might look like this someday. Since 1940 alone, telephones have increased 75% on the Coast. And the growth continues. Today your telephone is a bigger, more valuable servant than ever. Here's how it got that way. 2. Cables you'll probably never see had to be put in. New buildings, the telephones themselves, complex switching frames... an almost unbelievable amount of equipment had to be provided before the system could grow. We must spend millions of dollars to keep it expanding and improving... to meet the needs of the growing West. 3. Who pays for new equipment? Half a million dollars a day needed to expand and improve comes from investors who put their savings into the telephone business. To continue growing and improving, we must sell our services at fair and adequate prices that provide profits for investors that are fair and adequate. 4. When you make a local telephone call the cost averages less than a nickel. For those few pennies you hire a mighty servant... a bigger servant than ever before. There will soon be twice as many telephones on the Coast as there were ten years ago. They continue to go in rapidly. And each one added makes your telephone that much more valuable. The Pacific Telephone and Telegraph Company. More than 70,000 people working together to furnish ever-better telephone service to the West.

Now more than ever before— FIRST IN VALUE FIRST IN DEMAND Only Chevrolet brings you all these major advantages of BIG-CAR QUALITY AT LOWEST PRICES... prices now decidedly lower than those of any other car that even remotely approaches it in quality! You'll have so much more comfort with the genuine Unitized Knee-Action Ride... exclusive to Chevrolet and higher-priced cars. You'll enjoy more thrills and more savings with Chevrolet's world's champion Valve-in-Head engine. Valve-in-Head, too, is exclusive to Chevrolet and higher-priced cars. You'll know that your Chevrolet leads in tasteful luxury, for it has the world-famous Body by Fisher—available only on Chevrolet and costlier cars. You'll have the safety of Fisher Unitized Construction, the Knee-Action Ride and Positive-Action Hydraulic Brakes... combined only in Chevrolet and costlier cars. Compare Values!... Compare Prices!... CHEVROLET— and Only CHEVROLET — IS FIRST! Hodge Chevrolet Co. Main and May Phone 403 Heppner, Ore.
