New 4-H Club Awards Stress Farm Forestry

FARM OWNERS 30%	OTHER SMALL OWNERS 27%	LARGE OWNERS 18%	PUBLIC 25%
--------------------	---------------------------	---------------------	---------------

The importance of farm forestry in America is stressed by the fact that farmers own the greatest single share of commercial woodlands. A 4-H club forestry project, symbolized by the young man planting a seedling, offers awards to spur interest in farm forestry.

"Good forest practices on the nation's farms are of major importance," declares Col. William B. Greeley, chairman of the American Forest Products Industries. "Farmers own a greater share of the nation's woodlands than any other group. With our uses for wood increasing almost daily, we must see to it that our harvests of trees are sufficient to meet the needs of our growing population. This means markets for wood, and this means greater and permanent opportunities for farmers who manage their woodlands for continuing forest crops."

National surveys show that farmers own 30 per cent of the nation's 460 million acres of commercial forest land. Other owners of small tracts own 27 per cent. Medium and large owners have about 18 per cent of the total, and the public owns about 25 per cent.

Information about the 4-H club forestry project may be obtained from your county extension agent.

SALAD DAYS

Lagging appetites on hot days are the despair of many a homemaker. To stimulate her family's jaded taste buds despite wilting weather, she will find a salad meal a welcome change. A bowl of hot soup, a light yet filling salad, crisp rolls, fruit dessert and a tall frosty glass of milk

make an ideal hot weather supper.

Most menfolk aren't satisfied with a vegetable or fruit salad as a main dish and we can't blame them. Most men have good appetites even in hot weather, and if you are going to satisfy them yet spend a minimum of time in the kitchen, a substantial, nourishing salad is in order.

Cottage cheese is one cool, ready to eat food which will make your light summer salads substantial enough to suit any man. Cottage cheese supplies about the same amount of protein as a serving of meat, and it combines with fruits, vegetables and other foods.

In planning summer salads, use an abundance of the fruits and vegetables in season and make your salads interesting with color contrast. To keep that crisp cool look once the ingredients have been placed on the plate, don't rearrange them, and don't overcrowd them.

Cottage Cheese Salmon Salad is a tasty summer supper dish that will make a hit with Dad and the boys. Serve it with a bowl of hot soup, sliced tomatoes, crisp rolls, and a raspberry tart covered with whipped cream—and let the thermometer rise!

Cottage Cheese Salmon Salad
(Serves 4)

1 cup cottage cheese
1 cup canned or fresh cooked salmon, flaked
1/2 cup celery, chopped
1/2 cup sweet pickles, chopped
Salt
Pepper
1/2 cup mayonnaise

Combine ingredients in order given. Chill to improve flavor. Serve with a tart salad dressing on lettuce. As a variation, tuna may be used instead of salmon.
