Every effort (of the 80th congress) at economy was met by stubborn resistance too often supported by the White House, and some of it bordering on treason. When appropriations were cut from bloated departments, the wasters were kept and the real servants of the public dismissed, in an effort to discredit the congress.—Apollo (Pa.) News Record

Lexington Woman Painfully Injured In Road Mishap

Mrs. Delpha Jones
Rev. and Mrs. George Hatch returned home last Wednesday after spending a few days in Portland where they were called by the serious illness of their son. The total tax bill of the United States is now \$57 billion or \$1,610 for each family of four. This is \$400 for every man, woman and child in the nation. The federal share is \$15 billion or 78 per cent of the total, while all state and local taxes amount to but \$12 billion. Ephraim (Utah) Enterprise.

Friends of Wallace say he has a sense of humor, but we wonder. The true comic would have preface that acceptance speech with: "Well, boys, you talked me into it."

OREGON VETERANS BENEFITTING FROM FOLLOWING PROGRAM

About 1000 Oregon veterans suffering from tuberculosis are benefitting from a follow-up program, carried on primarily for discharged patients through the Veterans Administration regional medical center.

In describing this work, Charles M. Cox, VA representative for this area, pointed out that one out of ten of the afflicted ex-servicemen was being treated by private doctors under the agency's "home town" plan.

"When a patient leaves the hospital, he is advised to report frequently for checkups, for x-rays, fluoroscopic examinations, sputum tests and also possible treatment," Cox said.

"This is aimed at guiding recovery and discovering relapses so that treatment can be resumed

quickly. It also helps to safeguard others from the spread of communicable T.B."

Known sufferers who neglect this service are contacted in person by VA social workers and urged to take the precautions.

At its Portland outpatient center, the VA is furnishing 150 pneumothorax treatments a month. All veterans examined for any reason are given routine chest x-rays, and are advised by letter if abnormalities are found.

Similar outpatient care also is being provided to many veterans with non-service connected illness by state and county public health centers, Cox added.
