Meanwhile, only a small part of the daylong program was made up of speeches. Joe Pechanic, chief of range research for the forest service in the Pacific northwest, was in charge of the actual sage clearing work. His men showed five different types of sagebrush removal equipment. Included was a preview of a Brushland plow that is expected to change the west's sage picture. Forest service workmen also demonstrated portable as well as truck driven flame throwers

The Lake county demonstration is all part of a plan being carried out by the Lakeview Rotary club. They're sponsoring a contest among Lake County's ranchers to improve the range lands of the county. The demonstration Thursday was just the start of a five-year program to show how grass can be substituted for the purple sage
