SCHOOL FUNDS DISTRIBUTED
 School districts of Oregon received \$8,132,946 in basic school funds this week from the state. Secretary of State Earl T. Newbery announced. The amount is the first half of the \$16,953,900 basic school fund for the 1948-49 school year. This year's fund is one million dollars greater than last year, being based on the rate of \$50 per pupil. The Multnomah county school district got \$1,660,608, the largest amount allocated to any district in the state.
WOULD ELIMINATE A TAX
 Although there has been no fanfare or thumping of drums, Secretary of State Earl T. Newbery has been quietly waging a campaign against federal automotive excise taxes in Oregon.
 Newbery is seeking congressional converts to his belief that the depression emergency that gave birth to these taxes is over, and that the taxpayers of Oregon should now be freed from this hidden tax burden.
 Available figures indicate that the taxes imposed by Newbery take annually about 13 million dollars from Oregonians.
EMPLOYMENT RECORD TOPPED
 There are 200,000 more persons employed in the state than ever were at any time before the late war, and many more than at the war-time peak. The number of persons employed in logging, lumbering, construction and other manufacturing jobs is twice the pre-war total. Of the 684,300 employable persons in the state only 20,300 are unemployed and 628,000 employed, the largest total in the state's history.
FILBERT PRICES FIXED
 Opening prices for 1948 in shell filberts was established at Salem this week by the board of directors of the Northwest Nut Growers. The new schedule was submitted by the sales committee of the board and is in line with the idea of brokers, buyers and others of the trade. The new prices for 1948 in-shell filberts delivered west of Denver and Billings are:

From where I sit... by Joe Marsh
Nicest Compliment I've Had
 One of the nicest comments I've received about this column was from an editor in the Middle West I called on. And while I don't like to give myself orchids, I think it illustrates a point.
 "Joe," he said, "it so happens I don't agree with everything you say, but I always like to run your column. Because it gets down to earth and talks about the right to disagree. And it only asks for tolerance towards the other person's point of view."
 He went on to explain, by way of illustration, that he never had happened to have a taste for ale or beer. But that when I spoke of the right to enjoy a moderate beverage like beer, well, he was right there with me!
 And from where I sit, that's the important thing: not whether you share another person's tastes or point of view—but whether you recognize his right to exercise a free choice in a free land.
