

Federal, State, and local governments take 31 cents out of every dollar earned. Let no ruler suspect for one moment that by exercising our constitutional right to elect our leaders that we are divided—Governor Dewey.

DON'T PUT UP THIS SIGN!

New industries can't come to Oregon now if they use large amounts of electric power. There's an actual power shortage in the state.

Why haven't more power dams been built? One big reason is an obsolete Oregon law that discourages building of hydroelectric plants by power companies.

The last state legislature corrected the law that is holding up Oregon's progress. It made Oregon power laws conform to the Federal Power Act. The vote was 70 to 20! Now the modernized hydroelectric law is submitted to the people for approval, in the form of Referendum 306.

Vote 306 X YES
—for electric progress

From where I sit... by Joe Marsh

How to Celebrate Your Wedding Anniversary

The "Dutch" Millers celebrated their Tin Wedding Anniversary Saturday. Everything had to be tin. Folks even ate off tin plates, and drank coffee out of tin cups.

When it was time to drink a toast to the "bride and groom," out came the final touch: ice cold beer in cans. And come the Millers' 15th anniversary (Glass) I expect we'll be toasting them with sparkling beer in bottles!

And I couldn't help thinking that there was a lesson for married folks in the way Dutch and his missus have got along together—in their policy of live-and-let-live, with never a criticism of each other's differences in taste.

From where I sit, it's due to two things: Temperance—as that moderate preference for beer suggests, and Tolerance—for their own differences of opinion—and for the tastes of others, whether applied to beer, to politics, or how to celebrate an anniversary.
