Washington Week

By CHARLES L. EGENROAD

Washington, D. C.—The United States never needed its security bolstered more in its history than it did when Harry Truman attempted to pull the sneak play with "I like old Joe" Stalin.

Governor Thomas E. Dewey and Senator Arthur H. Vandenberg promptly calmed the turbulent international waters with sound confirmation of the cooperative policy toward Russia to which we are pledged with Britain and France and other western European powers.

A strong saving factor in the situation created by the Truman-Vinson-to-Joe double-cross combination was Governor Dewey's position of being the nation's overwhelming choice for the next President of the United States.

The New York Governor had long before made his position clear on the international picture, and Secretary of State George C. Marshall knew as he flew back to this country that fate had made it imperative for him to take a stand against his own President.

He knew that if he could block the Truman blunder, which he did, that the solid foreign policy built up through bipartisan effort would be saved for a President after January 20 who is pledged to make that policy strong and who keeps his pledges.

It must be disconcerting to Secretary Marshall and those with whom he is working toward trying to bring peace out of a chaotic situation, to be forced to depend upon a President who in four months reverses his European policy without as much as consulting with his Secretary of State.

On last June 12, while Mr. Truman was cavorting about the country on a "non-political" trip, he said in a speech at the University of California that there would be no two-handed "deals" between this country and Russia. He went even further to say:

EXAMS TO BE HELD FOR NAVY ROTC SCHOLARSHIPS

Oregon high school students are again eligible to take qualifying examinations for navy ROTC scholarships valued at from \$5000 to \$6000 per year, announced Captain C. M. Jensen, head of the NROTC at Oregon State college.

Selection of next year's quota of 2300 students will be made from those taking the competitive aptitude tests to be given in eight Oregon cities on December 11. All high schools now have application forms which must be submitted by November 10.

Oregon State is one of 52 leading colleges with NROTC units and now has 85 students attending under full scholarships in which the navy pays all tuition and fees plus \$600 a year in cash. Students take any course they choose plus a naval course each term and three summer cruises leading to a commission and not less than two years of active service.

In the act of preparing a two-handed deal with Russia.

It was on that same "non-political trip"—in fact, just four days after he pledged no two-handed deals with Russia—that Mr. Truman said in a train platform speech: "Thank God the foreign policy of the United States has not gotten into this brawl" (meaning the campaign, of course).

Yet, he was the one who not only attempted to get it into the "brawl" but that is what he believes the election of a President to be, but came within a five o'clock whisker of putting the Supreme Court of the United States in with it.

ROTC CHEMICAL UNIT ADDED AT O.S.C.

Organization of a chemical corps in the army ROTC program here has been authorized, making O.S.C. one of only seven leading technical institutions in the country where these are established. Past superior rating of the unit and the strong work in science and other technical fields led to the selection. Other ROTC units here are infantry, artillery, air force, engineers and signal corps.

OSC PICKED TO WORK ON ATOMIC RESEARCH BY AEC

Oregon State college and three other schools in Oregon are now listed among 13 universities as cooperators with the Atomic Energy commission in its fellowship

program in the medical and biological sciences. Two scientists from O.S.C. spent last summer in special study at the Oak Ridge atomic plant and at the Brookhaven National Laboratories learning the techniques of research with radioactive elements now available for such use. They will in turn train graduate fellows and will supervise research in that field.

Other cooperating institutions in this region are the medical school in Portland, the college of liberal arts at the University of Oregon, and Reed college.

Elect BELTON STATE TREASURER

There's a lot of difference of opinion in our county on the best kind of pasture. Some say alfalfa mixed with brome grass—others say mixed with oats or barley. But all agree that a mixture's better than a single crop.

I sometimes think people are the same way—and the strength of America is its mixture of so many different strains—some from one country, some from another—right down to little differences: like folks who have a taste for beer and those who prefer cider.

So neighbor—enjoy your cider while I enjoy my beer! Vote for your candidate—I'll stand by mine! But never let our differences divide us!

I'm Glad We're "Different!"

There's a lot of difference of opinion in our county on the best kind of pasture. Some say alfalfa mixed with brome grass—others say mixed with oats or barley. But all agree that a mixture's better than a single crop.

I sometimes think people are the same way—and the strength of America is its mixture of so many different strains—some from one country, some from another—right down to little differences: like folks who have a taste for beer and those who prefer cider.

From where I sit, so long as we never become intolerant of one another's different tastes—so long as we live together with our differences, and even supplement them the way brome grass does alfalfa, then we're a mighty good crop!

So neighbor—enjoy your cider while I enjoy my beer! Vote for your candidate—I'll stand by mine! But never let our differences divide us!

2 MINUTES THAT MAY CHANGE YOUR WHOLE LIFE

It takes just two minutes to read this ad and what you decide as a result of it may change your own life and that of your children for years to come.
The point is simply this:
Those whom we elect in this election may well decide most of the vital issues which will affect you directly—peace or war, prosperity or depression, moderate prices or high ones, progress or stagnation.
These are the reasons why it is more important than ever before that we VOTE FOR THE BEST MAN in every office, large or small.
HERE IS A CHALLENGE FOR YOU. Make a real study of all candidates offering themselves for public office in this election. Forget for a moment your own party affiliation and that of the candidate you are investigating. Think only "Is this man, is this woman, the candidate best suited by personal background, ability and record in public and private life for this particular office?" Do this honestly and we are sure that you, too, will vote Republican.
Remember, vote for the best man, may the best man win!
