

**Choose the Wagon to Fit Your Needs Exactly!**

**...FROM THE Light-Running, Easy-Handling JOHN DEERE "BIG 3"**

If it's safe, swift, smooth hauling you want, be sure you choose your rubber-tired farm wagon from the John Deere "Big 3". There's one that fits your pocketbook and your hauling requirements exactly. There's the dependable, smooth-trailing No. 953, with all the features you need for general-purpose work on the average farm. If you want a low-cost rubber-tired wagon for use at lower speeds, your choice should be the No. 943. The No. 963 will be your selection if you need extra-rugged construction and larger tires for heavy-duty hauling. Regardless of which you choose, each gives you such modern wagon features as automobile-type disk wheels, Timken tapered-roller bearings, telescoping reach, all-welded frame construction, and auto-steering. See us for complete details.

**Random Thoughts ...**  
Continued from First Page  
week and there were many expressions of surprise at the appearance of the little city as recorded by the camera at an elevation of 3500 feet. While portions of the south end of town are not included, all of the business section is plainly visible, and all of the town out as far as the lower end of the railroad yards was in the range of the camera. The compactness of our little city elicited many comments from members of the luncheon club.

The Duffel Bag, by Hazel Hoe, is accountable for the following: "The army," says Charlene, "is a big bunch of cocky guys in khaki looking for cookies." "A dame and an automobile are pretty much alike," sez little Ignatz. "A good paint job hides the years, but the lines tell the story."

Who are we to argue with the guy who says there's no place like home? Where else nowadays can a person trust the hash? One good thing to remember whilst cussing out your enemies ... You made 'em.

**INSTALLS X-RAY SHOE FITTING MACHINE**  
Keeping abreast of the times, Edmond Gonty has installed a machine to aid in shoe fitting. The new piece of equipment is a Simplex X-ray Shoe Fitter, which makes it possible to see the bones in your feet and permitting the salesman to determine the proper size and last.

**From where I sit ... by Joe Marsh**  
**To Dunk or Not To Dunk?**  
Dunking doughnuts is Sober Hopkins' favorite morning pastime ... and for a long time Ma Hopkins has been trying to break him of the habit. Feels it sets a bad example for the children.  
So one morning she puts a heavy frosting of chocolate on the doughnuts ... figuring that will stop him. Sober thinks it over for a while and then: Dunk! Taste! Smile!! And Sober compliments the misus on the lovely mocha flavor!  
I guess there'll always be two schools of thought: to dunk or not to dunk. But from where I sit, it's a matter of personal choice and taste—like some folks prefer beer to cider, ale to beer. And the less we criticize those differences of taste, the better.  
In fact, Ma Hopkins got so curious about the flavor of chocolate-covered doughnuts dunked in coffee, that she tried it herself. Now— you've guessed it—she's a daily dunker, too!
