MISS CUTSFORTH ON COLLEGE RADIO STAFF
 Among the staff positions recently assigned at KWVC, Stephens college radio station at Columbia, Mo., is that of Miss Dorothy May Cutsforth of Lexington as a member of the sports department.
 The station, owned by the school and operated in all its phases by radio students, broadcasts daily on the campus.

Miss Cutsforth, daughter of Orville W. Cutsforth, worked during vacation the past summer for the Gazette Times.
 Let us winterize our car with permanent type anti-freeze. Rosewall Motor Company.

From where I sit... by Joe Marsh

It's Your Fight, Too!

Bing Crowley was "beefing" the other day about all that Our Town's doing in the way of sending food and clothes to Europe. Bing felt that those struggling democracies should look after themselves.

And from where I sit, no liberty's too small to overlook. Because the minute one small freedom is threatened, all the others are in jeopardy—just as the minute one small country loses freedom, all its neighbors are in danger!

But most agreed with Judge Cunningham who said: "So long as any family or individual in Europe is helping hold the line for freedom—against the forces of intolerance—it's common sense, and common decency, to help 'em."

Because that's everybody's fight: To see that individual freedom is preserved in every aspect, big or little—whether it's the right to vote, or the right to enjoy a temperate glass of beer or ale with friends.

Joe Marsh

No smokey rooms **No kerosene fumes**

Pearl Oil, a long-time Western favorite, is solvent-refined to remove all impurities that cause smoke and soot.

Pearl Oil leaves the air fresh... won't taint foods. Every drop burns... gives more heat and light for your dollar.

No flickery gloom **KING OF THE KEROSINES**

When you use Pearl Oil you seldom have to adjust burners... its clear, steady flame won't "creep up."

Why Conservation of Electricity Is Necessary Now!

Cooperation of Entire Pacific Northwest Needed to Solve Problem of Electric Power Shortage During Winter Season

Power demands of the Pacific Northwest have grown to the point where it is necessary to ask all users of electricity to cooperate in conservation measures. Already this winter, power demands are equalling the full capacity of the region's pooled electric generating resources.

From now on, throughout this winter season, conservation of electricity by ALL users will be necessary during the daily peak hours of 4:30 to 6:30 p.m.

ALL electric utilities of the entire Pacific Northwest are actively working together to help meet the common problem—pooling their output of power and coordinating the operation of their systems. But they can't do the whole job alone! Your cooperation and help are needed, to make the available kilowatts go around!

No area—no home or business or industry—in the whole Pacific Northwest is immune to the shortage. The entire area has experienced a phenomenal growth in new homes, new industries, and expanded business. Shortages of materials caused by the war have made it impossible to keep pace with the growing demand for more and more electric service.

TO KEEP JOBS GOING... KEEP PROSPERITY GROWING MAKE EVERY KILOWATT COUNT!

IN THE HOME
 Between 4:30 and 6:30 p.m. reduce all electricity used for heating to an absolute minimum. In so far as possible, serve oven meals prepared in advance of 4:30 p.m. and confine surface cooking to the fewest possible units; wash dishes and bathe after 6:30 p.m.; restrict washing and ironing to the morning or after 6:30 p.m.; turn off all lights not actually needed between 4:30 and 6:30 p.m.

IN THE BUSINESS ESTABLISHMENT
 Turn off or reduce to a minimum all window display and ornamental lighting between 4:30 and 6:30 p.m. Reduce air conditioning and refrigeration between these hours. Reduce use of electrically operated equipment. Cut use of outdoor and indoor electric signs and lighting to a minimum between 4:30 and 6:30 p.m.

IN THE INDUSTRIAL PLANT
 Between 4:30 and 6:30 p.m. reduce use of electrically operated machinery and equipment to a minimum; eliminate all ornamental and less essential lighting.

Pacific Power & Light Company
