MY ADVICE —

BUY ONLY GENUING JOHN DEERE PARTS - THEY FIT AND WEAR LIKE THE ORIGINALS

Take Your JOHN DEERE

EQUIPMENT to the Man

who knows it Best!

It doesn't take a crystal gazer to learn it pays to have John Doere Equipment serviced by your John Deere Dealer . . . by our shop.

Why? For three important reasons: (1) Our mechanics are trained to service John Deere Equipment the way the factory recommends. (2 and 3) We've equipped our shop with precision tools... stocked it with only genuine John Deere Parts.

No other shop in this community can match this efficient, economical service. See us for details the next time you're in town.

to cost just as much in 1949 as it does now, barring sudden and unexpected-reversals in the price curve.

The only bright spot is in sup ply. There will be more furniture and house furnishings available in 1949, believes Miss Mabel W. son, county home demonstration

Prices paid by farm families for furniture and furnishings in creased 6 per cent between June 1947 and June 1948 in contrast to the 14 per cent hike during the previous 12 months period. While prices paid by the farm families for building materials and house furnishings have continued to climb, there have been signs of

tapering off in all the items. Since many of the basic raw materials such as lumber and steel that are used in the build ing trade are also used in the manufacture of furniture and house furnishings, continued heavy demands will probably keep prices high.

#### HOMEMAKER .::

Between 4:30 and 6:30 p.m., eliminate all space heating by electricity; in so far as possible, serve oven meals prepared in advance of 4:30 p.m. and confine surface cooking to the fewest possible units; wash dishes and bathe after 6:30 p.m.; restrict washing and ironing to the morning or after 6:30 p.m.; turn off all lights not actually needed between 4:30 and 6:30 p.m.

WHAT YOU CAN DO TO HELP

CONSERVE ELECTRICITY

BETWEEN 4:30 and 6:30 P.M.

To avoid danger of serious breakdown in the electric systems of the entire Pacific

Northwest, with consequent loss of industrial production, jobs and curtailment

of growth and prosperity in your community, USE OF ELECTRICITY MUST

BE CONSERVED BETWEEN 4:30 and 6:30 P.M. DAILY.

Here's how you can help: /

#### INDUSTRY .::

Between 4:30 and 6:30 p.m., reduce use of electrically operated machinery and equipment to a minimum; eliminate pumping, air conditioning and all ornamental and less essential lighting except as necessary for safety.

### BUSINESS MAN...

Turn off or reduce to a minimum all window display and ornamental lights between 4:30 and 6:30 p.m. Reduce air conditioning during these hours. Reduce use of electrically operated equipment after 6:30 p.m. Cut use of outdoor and indoor electric signs and lighting to minimum between 4:30 and 6:30 p.m.

To keep Jobs going-keep prosperity growing MAKE EVERY KILOWATT COUNT!
