

### Campfire Girls Of Lexington Honor Mothers, Leader

Mrs. Cecil Jones  
At the regular meeting of the Ne-Top-Pew Campfire Girls on Wednesday, Dec. 22, the girls finished their mothers' Christmas gifts, and enjoyed a Christmas party which was a surprise given them by their guardian, Mrs. Delpha Jones. They had a lovely cake which was beautifully decorated with yellow roses, and the cross legs and flame. On the cake written in yellow were the words "Campfire Girls." Ice cream was also served. Also one of the outstanding things of the meeting

was when Beverly Nolan and Glenna Griffith presented Mrs. Jones with a beautiful lace tablecloth from the girls and their mothers. This was in honor of Mrs. Jones' birthday and Christmas. A good time was enjoyed by all and the meeting was entirely social with the business being left for next meeting which will be held January 5. Miss Dona Barnett and Mrs. Trina Parker spent Christmas in Portland where they visited relatives, the Dopplmaiers, the N. A. Leaches of Portland, and Mrs. Virginia Miller of Salem. They report a lovely time, with the party and exchange of gifts being held in the party room of the Leach home, after which there was served a lovely luncheon with the party ending with the singing of Christmas carols. Christmas dinner was served at

the Dopplmaier home in East Moreland, assisted by Mrs. Miller of Salem. While in Portland they also visited with Mr. and Mrs. James Leach.  
Mr. and Mrs. Harry Dinges spent Christmas in Portland with their son and daughter-in-law. Mr. and Mrs. Danny Dinges. They were accompanied by Mrs. Trina Parker and Miss Dona Barnett.  
Miss June Steagall who attends St. Joseph's academy in Pendleton is spending the holidays with her parents, Mr. and Mrs. Wilbur Steagall and family.  
Mr. and Mrs. Everett Crump and family spent Christmas with Mrs. Crump's parents, Mr. and Mrs. Chas. Breshears.  
Mr. and Mrs. Ken Way of Pendleton were Lexington visitors over the week end.  
Betty Ann Smethurst is visiting her parents over the holidays from La Grande where she at-

### News From C. A. Office

The Bangs testing program started December 13 is progressing with Dr. Gordon Blake and Dr. L. L. Taylor, bureau of animal industry veterinarians, doing the testing. These veterinarians will test as long as there are cattle to be tested. Every livestockman is urged to test his cattle at this time as veterinarians are hard to obtain when needed. The testing is being done free in cooperation with the county program to free Morrow county of this disease.  
The work is going along slower than first anticipated as a tuberculosis test is being made at the same time. This test is necessary if Morrow county is to retain its accredited standing which expires in February. Ten percent of the cattle will be tuberculin tested for an indication of the disease.  
Requests for testing may be left at the county agent's office.

Harold Wright, Rhea creek farmer, called at the office a few days ago to get recommendations for pasture and hay seedings. While discussing recommended pasture seedings with Mr. Wright it was found that he is very well

satisfied with the newer pasture mixtures of grasses and legumes now being recommended. During the past spring, Harold seeded approximately forty acres of Ranger Alfalfa, one of the first seedings of that variety in this county with alta fescue and tall meadow oat grass. A good stand was established, in fact two light cuttings of hay were taken from the new seeding. But the outstanding results were obtained from grazing this fall. The grass and alfalfa provided pasture for livestock with calves at weaning time making gains instead of the usual loss.

Man farmers in Morrow county are finding that a mixture of grass with their alfalfa seeding not only keeps undesirable annuals such as cheat from becoming a nuisance, prolonging the life of the seeding, but that this mixture also provides a very fine pasture in the fall.

For those livestockmen who have not yet sprayed their cattle for lice it is suggested that it be done as soon as possible. Spraying should be done before lice begin to cause unthriftiness in animals. Spraying should be done with at least a 250 lb. pressure, 400 lbs. being more satisfactory. Twelve pounds of 50 per cent wettable DDT per 100 gallons of water is now recommended. This should be applied at the rate of one and one half gallon per animal. In winter weather spraying should be done early in the day in order that cattle can be dry before evening.

Mr. and Mrs. Herman Wallace and family and Mr. and Mrs. Jim Bloodworth were dinner guests at the home of J. P. McMillan on Christmas.

A farewell dinner was served at the Christian church Sunday honoring Mr. and Mrs. Hatch who are leaving this ministry for Portland on Tuesday.

Mr. and Mrs. C. C. Carmichael are spending a few days in Portland and Vancouver with Mrs. Carmichael's mother, Mrs. Belle Leathers.

Mr. and Mrs. Maurice Groves are spending the holidays in Salem with friends and relatives.

Mr. and Mrs. Joe Feathers and family are spending the holidays with the Rev. Kellogg family in Clackamas.

Mr. and Mrs. Jerry Baker are spending the holidays in Portland.

The Lexington women's town team and the high school girls met on the local floor in the first game of the year of volleyball with the high school girls winning by one point.

Mr. and Mrs. H. E. Yarnell and son Alton were guests at the Clifford Yarnell home on Christmas.

Mr. and Mrs. W. E. McMillan, John Spence and Wayne Papineau were business visitors at Ordinance on Monday.

Archie Nichols has been working at the Red and White store during the Christmas rush.

Mr. and Mrs. Clarence Brown and daughter spent the vacation in Condon.

Mrs. Jack Griffin accompanied her son and family to California where she will spend a few days in San Francisco.

Mrs. K. K. Marshall is at home again after a couple of days spent in Pendleton.

Mr. and Mrs. Hank Stotts had a family party on Christmas eve with the following people attending from Heppner, Mr. and Mrs. Norman Florence, Mr. and Mrs. Walt Gilman and Mr. and Mrs. Dean Gilman, Jack and Jim Stotts.

### This Week In History

December 26 to January 1  
By the Editors of the World Book Encyclopedia.

For the better and safer world in which we live today, mankind must give great credit to Louis Pasteur, French father of bacteriology, born on Dec. 27, 1822. Having studied in Paris, he investigated the process of fermentation and his work resulted in great improvements in the French liquor industry. He discovered the method of arresting fermentation in milk called after him pasteurization.

Man farmers in Morrow county are finding that a mixture of grass with their alfalfa seeding not only keeps undesirable annuals such as cheat from becoming a nuisance, prolonging the life of the seeding, but that this mixture also provides a very fine pasture in the fall.

For those livestockmen who have not yet sprayed their cattle for lice it is suggested that it be done as soon as possible. Spraying should be done before lice begin to cause unthriftiness in animals. Spraying should be done with at least a 250 lb. pressure, 400 lbs. being more satisfactory. Twelve pounds of 50 per cent wettable DDT per 100 gallons of water is now recommended. This should be applied at the rate of one and one half gallon per animal. In winter weather spraying should be done early in the day in order that cattle can be dry before evening.

Chrysanthemum and Topaz are the flower and stone for November; Narcissus and Turquoise for December.

For the first time in history U. S. oil production this year topped 5,600,000 barrels a day.

The United States has about three-fifths of the world's gold stock, 24 million dollars worth.

Farm construction is expected to cost farmers 450 million in 1949, the Government estimates.

#### CARD OF THANKS

Our sincere appreciation is expressed to all our friends for their many kindnesses during our sorrow.  
Mrs. Mabel Hughes,  
Mr. and Mrs. W. E. Hughes,  
Mrs. Marjorie Hughes and Jim.

Mr. and Mrs. Lawrence Luter.

#### CARD OF THANKS

We are deeply grateful to our neighbors and friends for their expressions of sympathy in our recent bereavement and for the beautiful floral tributes to the memory of our beloved wife and mother.  
Orve Brown and family.

### The Day After Christmas

- It was the day after Christmas and all thru the shop
- They were busy as bees from the lube man to pop.
- Roy was there with his test set and all
- For a customer had brought him a Dodge to overhaul.
- Rosy was jumping like a young kitten
- He was selling a heater to a customer frost bitten.
- Frank was busy with a Studebaker heater installation
- He said, when the customer turns the switch he will get a sensation.
- Carl was busy with his torch and his hammer
- Repairing a DeSoto and Chevy that had been hit with a jammer.
- Wilbur was busy inspecting a GMC freeze
- He said it was too bad this customer did not use Ford anti-freeze.
- Everett was busy as customers kept him jumping
- Assigning repair jobs to stop motors from thumping.
- Jack was behind the counter dishing out parts;
- The mechanics were happy because they knew the motors would start.
- Walter and Virginia were in the office as usual
- Giving the repair orders and sales tickets the regular perusal.
- Darrell and two helpers were in the parts department counting;
- He said my list is so long when will it stop mounting.
- Fred from La Grande was hurrying back;
- He knew repair jobs would continue to stack.
- Rosy stopped to visit with a customer that was nervous
- He said the good people of this section know where to get service.
- Don was busy completing a Dodge heater installation;
- He said here is another customer that will get a sensation.
- Al was busy pumping gas and doing lubrication;
- He said customers are smart to service cars while on vacation.
- Oren was busy on an International from Dayville;
- He said needed repairs will prevent a bad spill.
- Rosy came in and took a look at the cold mercury;
- He said it was fun to work with a gang full of turkey.

Apologies to Kr. Kringle.

ROSEWALL MOTOR CO.
