C. A. Office**

LENA OFFICERS

Mrs. Raymond French will serve as chairman of the Lena extension unit next year. Assisting her will be Mrs. Violet Swagart as vice chairman and Mrs. Edwin Hughes as secretary. This unit met Thursday at the home of Mrs. Vera Berry to discuss family relationships.

RHEA CREEK ELECTS

Mrs. Ben Anderson will serve as chairman of the Rhea Creek home extension unit for 1949-50. Mrs. Walter Wright will be the group's vice chairman and Mrs. Harold Wright past president, is the new secretary. This unit met with the Hepner unit Tuesday at the home of Mrs. Ralph Thompson. 23 women heard Mrs. Edith Freeman discuss family relationships. Two visitors from the Lexington unit were present, Mrs. Vernon Munkers and Mrs. Gene Leonard.

ATTENDED HOUSING TOUR

Miss Mabel Wilson was one of the 104 persons who attended the tour of new and remodeled homes in Hood River county last week Tuesday. Five homes were visited and the major changes were noted with their significance to the family living in those homes. This is one of the methods of the extension service to interest rural families in seeking help with housing problems, major or minor.

R. G. Johnson former head of the Animal Husbandry department, Oregon State college, now with private cattle concerns in Venezuela, South America, stopped at the county agent's office the fore part of the week. "R. G." is taking a short vacation in Oregon before taking over direction of the interests of a Venezuelan cattle company and is visiting for a few days at the home of Steve Thompson. He has many interesting experiences in developing the livestock industry of that country.

Appearance of urinary calculi in cattle in some parts of eastern Oregon has led to inquiry at the veterinary department of O.S.C. experiment station which has just issued a circular of information on the subject written by Dr. O. H. Muth, station veterinarian.

Urinary calculi are defined as hard, chemical substances that form in the bladder or urinary tracts ranging in size from sand-like grains to bodies several inches in diameter. When serious they stop the passage of urine.

After giving reports of research carried on in other places in this problem, Dr. Muth says that so far its occurrence in Oregon is so irregular as to make field experimental work difficult.

He recommends that simple surgical treatment be obtained when serious cases are discovered. Those experiencing this trouble in their herds are asked to inform their county agent who will forward samples of stones to the college for study, since more information on the situation in Oregon is desired.

**High School Frosh
Take Banking Course**

Freshmen students of the general mathematics class at the high school went in for some practical training last Friday when, with their teacher, Mrs. G. L. Clary, they visited the bank. Merle Becket, bank manager, was ready for them and divided the group in sections which passed from one instructor to another, as they studied the business of handling the money of the community.

Included in the visiting group were Dale Baker, Elwayne Bergstrom, Marilyn Bergstrom, Gary Connor, Keith Connor, Marlene Duran, Jo Jean Dix, Afton Eberhardt, Nancy Ferguson, Donna Gayhart, Rieta Graves, Floyd Green, Allen Hughes, Bernice Huston, Mickey Lanham, Eugene Miller, Helen Renoe, Lynn Hill, Sharlene Hill, Lillie Runyan, Charles Stout, Roy Taylor, Kenneth Turner, Donald Woods, Jack Yeager, George Wickes, Gary Byssell and Ronald Peck.

Mr. Becket will continue the instruction Friday, when he will again meet with the class.

This trip is a continuation of the workshop extension course which was recently given under the direction of the state department of higher education.

NEWLYWEEDS VISIT

Mr. and Mrs. Harry Fox spent a few hours in Hepner Saturday afternoon from their home in Wontchee, Wash. The former Elsie Cowins and Mr. Fox were married April 1 in Boise, Idaho and went from there to Portland on the 12th, arriving there in time to experience the earthquake. Having planned a wedding trip through part of the Puget Sound area they had an opportunity to see the damage wrought by the quake to Olympia and other towns of western Washington, with most of the brick chimneys shattered and many buildings damaged.

Mr. and Mrs. Ross Holliday of Portland announce the birth of a seven-pound daughter early this morning at Portland. Grandparents are Sam Holliday of Hillsiter, Mo. and Mr. and Mrs. Arnold Pieper of Lexington. John Pieper is the baby's great grandfather. The little girl, Marcia Rolleen, has the distinction of being the first girl in the Pieper family and is causing much happiness for them all.

Judge J. G. Barratt took his camera along when he and members of the county court went on an inspection trip a few weeks ago and these pictures reveal some of the havoc wreaked upon roads and bridges in the Sand Hollow district. The ordinarily dry channel was

**4-H CLUB
NEWS**

The lone clothing club met Saturday afternoon with six members present to further work on their garments. Miss Wilson and Mrs. McCabe were present. Mrs. Walter Wright has turned in the program of work for her Sewing club. Completion of this planned program enables that club to receive a charter.

Miss Wilson attended the basket social at Boardman Saturday evening where the profits went to the new 4-H building. The grange hall was overflowing, even on that rainy night, of old and young. All goes to show that when that Boardman bunch decided to put on a community extent they really go all out to make it a success. Local talent made up the entertainment for the floor show including the 4-H members.

Saturday, April 23, the Singing Stitches and Cooks held their meeting at Harold Peck's residence. This was a big day for the Sewing II girls as they were able to put out their dresses. The Cooks each brought three or four cookies for the rest of the girls to judge. We all thought they were very good.

Marlene and Nanette Griffith were absent at this meeting. The officers and the rest of the girls in our club were present. Our leader and four ladies were there too. The meeting ended with refreshments of punch and cake.

Patricia Peck, reporter.

Ronald Baker, 4-H club member of lone, is putting into practice some training he has received as a club member. Last winter Ronald attended the sheep shearing school put on by the state 4-H club office in cooperation with Sunbeam Corporation. Methods of shearing were taught at this school.

Ronald has just completed shearing his flock of 9 ewes carried as a 4-H club project. Fleeces weighed an average of eight pounds for the Hampshire-Suffolk cross ewes, with the Targhee ewes fleeces running as high as 17 pounds in weight. Ronald plans to shear ewes for 4-H club members now.
