Water Supply, Fast Driving Claim KPM Company Attention

By ELSA M. LEATHERS
The sawmill and green chain resumed work Monday morning after a two weeks lay-off. Several old employees that had been here several years ago returned to work. Among these are Louis Robertson of Pendleton, whose family will follow when a house is available, and Frank Clanton of Fossil, and others whose names were not available at this writing.

Kinzua Pine Mills company asks cooperation from all water users this week to conserve the water. At present there is an adequate supply, if each one will do his part when watering lawns and gardens, provided the dry spell doesn't last too long. Water use probably will not be restricted, depending upon the cooperation of the users.

The management also issued a personal warning to all employees who drive in Kinzua. The speed limit is 20 miles per hour in the town. Some have been disregarding this order. The officials have directed that violation of the speed limit rule will call for immediate discharge from the company's employ.

Kinzua played the last game of baseball on the local diamond, with Monument as the opponent—and got trimmed to the tune of

'Old-timer' has a special meaning at Standard

They say you're not really an "old-timer" at Standard until you've been on the job at least 20 years...and at 30 years, there's a special company award: a gold watch and six weeks' vacation with pay.

That's appreciation of a man's service to his company, of course, but it also illustrates a principle we believe in for all employees—good people in good jobs serve you best, and we do everything we can to make jobs at Standard good.

Security, good pay and working conditions, advancement from within, free insurance, annuities at retirement are all part of making that principle a reality.

The average length of service of all our 17,890 parent company employees is slightly more than 11 years. And the 20-year "old-timers"? Fully 4,856 are working with us today.

**We Wish We Could
Say More
Than Just THANK YOU!**

To all the firemen, the townspeople and all from the surrounding country who helped or would have helped if it had been possible, at Monday's fire.

But we do thank every person who in any way helped to check the spread of the conflagration which destroyed a large part of our plant.

We are in a position to carry on in a limited way with the facilities that were not hurt by the fire. With the cooperation of the railroad company we will be able to receive and ship your grain promptly.

Sincerely yours,

Interior Warehouse Co.
