### From where I sit... by Joe Marsh For The Ladies: A Diet That Really Works

We went out visiting the other night and the ladies were talking away about weight-reducing diets. One of them had a special "15-day Hollywood diet" guaranteed to slim her down fifteen pounds' worth. Another was living on bananas and skim milk!

I might have known the missus would get the bug, too, and sure enough the other day she asks me, "Joe, what kind of a diet do you think I ought to go on?"

"Mother," I says, "the only diet I would ever recommend to anyone is simply moderation. I wouldn't

trust any of those get-thin-quick diets. Simply cut down on desserts, bread, butter, sweets and fats—but when you do, even do your cutting down moderately."

From where I sit, moderation is the watchword. Moderation with food, with smoking or with the enjoyment of a friendly glass of temperate beer or ale. Actually, moderation adds to the enjoyment of just about anything.

### Stockman Seeking Aid For Counties From U. S. Forests

Congressman Lowell Stockman of the Second District of Oregon has introduced a bill to pay annually 2 per cent of the fair value of National Forest lands to the states for distribution to the counties in which the lands are located.

In speaking of the bill Representative Stockman said, "The National Forest lands of the United States are generally estimated to be valued at about \$800 million, and they are lands on which no taxes are collected by the counties. While the Federal government pays to the states, for distribution to the counties, 25% of all National Forest receipts, there has been criticism of this plan, due to the inadequacy of the funds and also because the contributions are apt to be least when prices are depressed and the need of the counties is the greatest."

The Congressman further added: "I believe the bill I am introducing would establish a larger measure of both stability and equity of contribution to the

counties. Each county would know at the beginning of each decade approximately the sum it would receive during the ensuing ten years from the then existing National Forest lands. Long-term county budgets or financial programs thus could be formulated with a far greater degree of assurance than is possible under the present 25% plan."

Representative Stockman explained that he was particularly interested in this legislation since the percentage of area under Forest Service administration in the counties of the district he represents is as follows: Baker 32.05; Crook 22.73; Deschutes 49.09; Grant 53.05; Harney 7.83; Hood River 61.74; Jefferson 13.97; Klamath 29.56; Lake 18.96; Malheur .06; Morrow 10.31; Umatilla 19.27; Union 45.94; Wallowa 56.00; Wasco 13.73; and Wheeler 15.11.

Mr. and Mrs. Cachot Therkelson, former owners of Hotel Heppner, were overnight guests in Heppner Tuesday. They attended the golden wedding celebration honoring Mr. and Mrs. J. Fred Lucas, and returned to their home in Portland Wednesday morning.

Mr. and Mrs. Bob Laughlin and son Bobby spent the week-end at Canas, Wash. where they visited relatives and friends.
