Come in and SEE how the new Montag Electric Range saves you time... money... work...

Case Furniture Company

has the answer to your range problem!

Of course you're tired of waiting for an out of date range to "perk". You're fed up with a hard-to-keep-clean range. That's why this beautiful new Montag Electric Range is the pride of the neighborhood the minute it moves into your kitchen.

YOU SAVE TIME EVERY MEAL

These wonderful new "Thermo-Kleen" surface cooking units give you clean, cool-kitchen electric heat almost instantly. And the 5 speeds on each element are always CONTROLLED, always the same, to a fraction of a degree. They stay flat, so more of the unit touches your utensils, to give you all-time cooking speed.

EASIEST TO CLEAN

You never again poke, probe or scrape to clean awkward elements. One flick of your finger swings these "Thermo-Kleen" units up out of the way. An easy sweep of your wrist keeps the smooth stainless steel drip pans spotless. They are easier to keep clean than any surface units made. And you have another work saver in the smooth, one-piece, stamproof porcelain enamel top.

COOK AUTOMATICALLY

Wait until you first put your big, new automatic Montag oven through its paces. Its self-minding, timer-thermostat is almost human. You put a whole meal on the safe no-tilt oven racks, set it, forget it. Come back, hours later, and it is cooked perfectly, on time, without watching, without waiting.

INSULATED... ECONOMICAL... COOL

Baking is a cool job now. A thick, efficient blanket of genuine Fiberglas insulation keeps the heat in, prevents the cool spots that spoil baked things. Saves current, too, besides keeping your kitchen more comfortable.

SEE YOUR DEALER NOW

You can have these important features today in the beautiful new Montag automatic range. Imagine how much time and work it will save you every day. Come in, see it now.
