**Heppner Hardware and Electric Co.**

These folks mean business for the West... Pacific Telephone people receive pay adding up to \$19,000,000 a month.

**Telephone paychecks also come to you**

1. Timber... paper... copper—we have to buy many things to build and run the telephone system. Last year Western Electric, our principal manufacturer and supplier, bought over 20 million dollars worth of materials in the West. More than half of each dollar we take in goes for employees. Most of it is spent and goes into circulation where they work and live.

2. More than 80,000 of those whose savings built the business... who own telephone stock... live in the West. In return for the use of their money, a few pennies of each telephone dollar go to them. And as they spend it, they also add to Western prosperity. It would probably be hard to find anyone who does not in some way benefit from the money we spend.

**Wanted:  
a friend**

"Gotta get home and fix Mom's lunch. Things are sure tough when she's sick."  
[It's no cinch being the man of the house at age nine. So many problems.]  
"Maybe I'll catch the visiting nurse, and she'll tell me when Mom will be up. I'll be late for school, too, and get bawled out again. I wish Pop was still alive. Gosh, I oughta wash out these old pants. They're awful dirty..."  
A friend can help so much...  
Friends like the clinics, and the family services, and the visiting nurses, and all the rest of the Red Feather services in this community.  
Friends like you who put up the money to see that this

work doesn't stop. Friends like you who give up precious time to canvass for funds, tax themselves, diminish their incomes, all to help neighbors they have never seen— anxious mothers, underprivileged children, sick people, folks who get less than their share of the breaks in life.

Everybody benefits... Everybody gives
