

### Monument Grange Elects Officers For Ensuing Year

The Monument grange held its annual meeting November 4. At this meeting the following officers were elected: Master, Lewis Batty; overseer, Bill Gates; lecturer, Clara Flower; steward, Dane Broadfoot; assistant steward, Gus Streckler; chaplain, Rev. Harris; treasurer, Millie Wilson; secretary, Edith Batty; gatekeeper, Roy Cork; Ceres, Bubbles Gates; Pomona, Lucy Ann Broadfoot; Flora, Maude Harris; executive committee, Clarence Holmes.

Mr. and Mrs. Duane Cumings' baby daughter, Dianna D, was born on November 1 at the Blue Mountain hospital.

The MMM club held its regular meeting at the home of Mrs. Ethel Schafer, with Mrs. Doris Capon as co-hostess. There was a large attendance. It was decided at this meeting that the club should sponsor the Thanksgiving dance. Committees were appointed to see about the music, gymnasium and supper. After the business meeting refreshments were served.

The St. John 4-H club held a meeting on November 5. New

officers were elected as follows: Loreita Music, president; Judy Stirewalt, vice president; Mary Powell, secretary; Joan Roach, news reporter; Marge Batty, song and yell leader; Sewing 1-A have started on their needle cases.

Clayton Sweek, Earl Lewis and Barney Cork spent the week-end in Portland.

Mr. and Mrs. Merlyn Weissenfluh of Portland spent their vacation visiting relatives and friends in Grant county. While here they were guests of Mr. and Mrs. Earl Sweek, Mr. and Mrs. Earl Barnard and Mr. and Mrs. Theron King.

A baby girl was born at the Blue Mountain hospital November 5 to Mr. and Mrs. Joe Mellor. The maternal grandparents are Mr. and Mrs. Lee Fleming.

Mrs. Jean Devore and Mrs. Chrystie Enright drove to Prairie City on Saturday for Mrs. Joava Enright and infant daughter.

Mrs. Moya Gilman was hostess to a dinner party Thursday in honor of her husband, Willard Gilman's birthday. The invited guests were Mr. and Mrs. Miles Gilman and Mr. and Mrs. Bill Settle.

Mr. and Mrs. Wayne Leathers drove to Bend Thursday. They were accompanied by Mrs. Morton Cupper and Roy Cork.

Rho Bleakman of Top took his wife and Mrs. Anna Cork to Mt. Vernon Thursday where they joined Mr. and Mrs. Dave Mus-

grave in a motor trip to Salt Lake City. They will visit one of Mrs. Musgrave's sisters, who is from the east. She is visiting her son in Salt Lake.

Mr. and Mrs. Earl Johns were attending to matters of business in John Day and Seneca Tuesday. Mrs. Johns' brother, Tom Shanks, accompanied them home. Tom is purchasing some cattle from Mr. Round.

Logging operations for the Big 4 Lumber company closed down last week.

Mr. and Mrs. Leo Flower and Mr. and Mrs. Charles Roach were business visitors in Canyon City and John Day Thursday. It is understood that Mr. Flower has purchased a portion of Mr. Roach's ranch, known as the old Lee Neal place.

A baby girl, Beverly Jane, was born at the Blue Mountain hospital November 1 to Mr. and Mrs. Ivan Enright. The proud paternal grandparents are Mr. and Mrs. Ed Enright, and the maternal grandmother is Mrs. Daisy Simas.

Mr. and Mrs. Arlot Fleming and children of Alaska are visiting relatives and friends in Monument this week. Arlot is enjoying some elk hunting while here.

Some of the lucky elk hunters of this community are Stanley Musgrave, Rho Bleakman, Zephyl Harrison, Perry Wilson, Bill Gates and both Mr. and Mrs. Robert Holmes.

The HEC club met at the grange hall Wednesday to hold an election of officers and to clean the hall before grange night on the 4th. Lydia Capon was re-elected chairman and Beta Cupper was appointed secretary. It was decided to sponsor a banquet honoring the 4-H club members and their parents. The date will be November 10.

An REA meeting was held in Long Creek Wednesday. Emory Moore, Dempsey Boyer, George Sturitt, John Simas, Rho Bleakman, Stanley Musgrave and Chance Wilson attended from Monument.

Emory Moore was passing the cigars Wednesday. He is the proud father of a bouncing baby boy born October 30 at St. Anthony's hospital in Pendleton. The young man has been named Emory Addison.

Mr. and Mrs. Lavern Johnson, Miss Hathaway and Manley Farrar of Bend were week-end guests of Mr. and Mrs. Harold Cork.

The bazaar given by the women of the MMM club was a financial success. It was given to help with the church work.

The Monument community was saddened to hear of the sudden death of Mrs. Mary Marcus last Saturday evening. She took sick about 5 p. m. and passed away at 10 p. m. No arrangements for the funeral had been made up to the time this is written. Mrs. Marcus had lived here many years and leaves beside her relatives a host of friends to mourn her passing.

### OUR DEMOCRACY—by Mat

#### TYPICALLY AMERICAN

IN THE DEVELOPMENT OF AMERICA MANY TYPICALLY AMERICAN QUALITIES HAVE COME TO BE ASSOCIATED WITH PARTICULAR SECTIONS OF THE COUNTRY. THE TERM "YANKEE THRIFT," FOR EXAMPLE, STEMS FROM NEW ENGLAND, YET WE RECOGNIZE THRIFT AS A TRADITIONAL VIRTUE OF AMERICANS IN GENERAL.

NO BETTER EVIDENCE OF THRIFT AS A NATIONAL CHARACTERISTIC CAN BE FOUND THAN IN THE OWNERSHIP OF LIFE INSURANCE BY FOUR OUT OF FIVE AMERICAN FAMILIES.

THEY GAIN, THROUGH THEIR THRIFT, SECURITY FOR THE FUTURE AND CONFIDENCE TO GO FORWARD TO FRESH ACHIEVEMENTS.

This is the bait that was so successfully demonstrated and used by farmers last spring. Over 500 pounds of the bait was sold during the time this office handled it. Many good reports on kills were made to this office.

With the coming colder weather rats are moving in to protection of farm buildings where grain and other feed is plentiful. There, rats multiply rapidly and cause much loss in damage to feed and other property to which they have access. This red squill bait is easy to use and is not poisonous to other animals. It is sold here at cost.

Use of 245-T or 24-D in fall, winter and early spring months on stumps will prevent resprouting. The ester of 245-T has proved more effective than ester of 24-D on certain species and for general stump treatment a mixture of one pint of ester of 24-D and one pint ester of 245-T in 10 gallons of kerosene, diesel or No. 2 fuel oil has been found effective. 245-T has been used in oil without 24-D and good results have been obtained on cottonwood, poison ivy, poison oak, blackberries, brambles and maple.

Another phase of the program calls for the home economists to make figure type descriptions as a means of better adapting dress designs to women of various proportions. Most of the dresses and dress patterns now available on the market are designed primarily for young women with "ideal figures" and are not suitable for mature figures, homemakers have found.

Dresses of various designs and for various figure types will be made on the basis of these findings and will be sent to from six to twelve selected homemakers for six month wearing tests. The homemakers will mail the dresses to the home economics department for laundering and ironing to insure uniformity in that phase of test work.

It is planned that the test dresses will be on display at the June 1950 meeting of the state home economics extension council. Once the final designs have been approved, the patterns will be made available to commercial pattern companies and dress manufacturers.

Also discussed was the Azalea House to be built on OSC campus for girls desiring to live and work in a cooperative house. Morrow county's part will be carried by the seven extension units. Mrs. Vernon Munkers, Lexington, chairman, will announce plans for fund raising soon.

To find out what Oregon homemakers want in the way of work dress design and construction, questionnaires are being mailed to various housewives throughout the state. Homemakers are asked to give their opinions on such items as best sleeve length, desirability of belts and buttons, and faults they have noted in the construction of ready-made dresses.

Later on, housewives will be observed at work in their home by Mrs. Edaburn and Mrs. Frazier as a means of finding what parts of the dress get the most wear and strain during the normal household tasks requiring bending, reaching, etc.

#### NEWS FROM HDA'S OFFICE

Enthusied over study at their meeting last Wednesday, members of the county home extension committee were enthused over the research project aimed at developing better designed and better constructed work dresses. Mrs. Clara Edaburn, associate home economist, is project leader, with Mrs. Na ette Frazier as research assistant.

### Permits Required For Cutting Christmas Trees, Forester Warns

Christmas is still 45 days away, but already the Christmas tree cutters are combing the Oregon woods for likely holiday greens. However, according to George Spaur, acting state forester, any Christmas trees harvested for commercial purposes must be cut under the provisions of the Oregon conservation act and a permit secured prior to cutting. Spaur stated that permits can be secured from the forestry department in Salem or from the nearest state forestry department headquarters within the various districts throughout the state. The forester also stated that the landowner's permission must be secured and his name and address included on the application filed by the Christmas tree operator.

The Oregon act requires that forest lands be kept in a productive and growing state after the removal of timber or other forest crops. Under these provisions, the commercial Christmas tree operator is required to leave not less than 300 trees per acre, with 100 well distributed. Old mature seed trees may also serve as a seed source where they exist on Christmas tree cutting areas. By leaving established young growth or seed source, continued forest production on the area is insured. All forest lands come within these requirements except lands which

are being cleared for agricultural purposes.

Mr. John Citizen, who wants to take his family out on the weekend and cut his own Christmas tree is not required to obtain a permit. He must, however, first obtain the landowner's permission before cutting his tree.

The forester was emphatic that he was not opposed to Old St. Nick and the Christmas tree harvest. "It is a custom long established, and nothing should be done to interfere with it," said Spaur. However, there are certain requirements which must be met if Oregon's forests are to be kept in a productive condition. The conservation act sets out these requirements, and if followed, the harvest of the trees can be in the nature of a beneficial thinning."

### TURNER VAN METER AND CO.

"I like to see self-supporting business go ahead this way."

PAT O'NEIL  
President, Dayton, Washington, Chamber of Commerce

\$5,500,000 WORTH of new electrical equipment items have gone into service on the P&L system in the past 12 months. Line trucks are rolling out every day with loads of wire, insulators, pole hardware, service transformers, and all the other items needed to help meet growing demands for low-cost electricity.

Since V-J Day, Pacific Power & Light has spent more than \$25,000,000 on new construction. These are development dollars—tax-paying, job-making dollars—invested here in the great Northwest to help meet your electrical needs.

The power requirements of a fast-growing region demand a steady flow of these development dollars into the Pacific Northwest. That is why all of us want investors to look on this region as a land of opportunity, and of fair reward.

The investor whose dollars help extend and improve your low-cost electric service, while sharing your tax burden, is truly a Partner in Progress!
