SALE OF E BONDS EXCEEDS \$2,000,000 DURING NOVEMBER

Sales of E Bonds in Oregon for November total \$2,229,087, with additional sales of F and G Bonds bringing total purchases of U. S. Treasury Department Savings Bonds to \$2,867,824, according to figures just released by the Federal Reserve Bank of San Francisco.

In connection with the publishing of these figures, Mr. E. C. Sammons, State Chairman, announced that comparisons show sales of E Bonds for November were off about \$140,000, compared to sales in October. However, total E Bond sales for this year exceeded the same period of time in

1948 by \$520,000. On the same basis of comparison, redemptions increased about \$185,000, but total redemptions for the 11 months of 1949 are running far behind the same period of 1948. These redemptions include substantial maturities, amounting this year to approximately \$7 million in Oregon.

Mr. Sammons also announced that eleven Oregon counties have exceeded their total sales for the entire year of 1948. At the end of November, Hood River County had outsold the year 1948 by \$134,000. Benton County with sales exceeding the 1948 total by \$58,000 and Malheur county exceeding 1948 by \$52,000 have also made exceptional showings.

County Chairman Mrs. Elaine George announced that sales of Savings Bonds in Morrow County for November totaled \$19,819, compared to sales of \$7,894 in October. Morrow County has exceeded total 1948 sales by \$34,846.
