A Tonic For The Missus

The missus came marching in with a new hat yesterday. She was as happy as a circus poster.

I've learned one thing about the hats she buys. A hat is a tonic to her. If she's feeling blue, nothing gives her a lift like a new hat. Now, I could trade in my old grey fedora without raising my blood pressure a notch. But I'll admit that more than once I've bought a new briar pipe I didn't need-just because life was getting a little

else again. When Buck is feeling

low, he gets over it by blowing on a broken-down clarinet he hasn't mastered in twenty years.

ple are always going to respond to

With Buck Howell it's something

From where I sit, different peo-

different things in different ways. So let's keep a friendly understanding of what other folks get out of a new hat, an old clarinet, a chocolate soda or a temperate glass of sparkling beer or ale now

One of the final elements to go into place in Pacific Power & Light company's new 45.000-kilowatt generator, now in service at the Merwin hydroelectric project on the Lewis river in southwestern Washington, was this 150-ton "rotor." The new generator was rushed to completion in time to help carry heavy winter loads on the Northwest Power Pool. Cost of the new power unit, plus facilities to distribute the added power through the PP&L system, was approximate. by \$3.800.000.

Since the war, Pacific Telephone gained as many telephones in the West as in the previous 19 years.

West's four-millionth telephone goes to work

1. Takes a lot of equipment to serve 4,000,000 telephones making 22,000,000 calls a day. And in just the few high-speed years since the war, we've almost doubled our facilities as measured in dollars. And those dollars have produced results. It took 45 years to install our first million telephones, 17 years to install the second million, 6 years for the third ... and only 31/2 years for the fourth

3. Your own telephone today is more ve as a result of the many we've added. You can all more of the people you want to call - more can call you. And your telephone does its work, big jobs and small, for only a few pennies a call. It's one of the best buys you can make with your

2 Service keeps on improving as we add this new equipment. Today you can get the dial tone or the operator quickly in almost every exchange. Long Distance calls, nine out of ten of them, go through while you stay on the line...often in half a minute if you know the number. It's a good record, But we won't be satisfied until everyone who wants service has it... the best service ever.

The Pacific Telephone (a) and Telegraph Company
