If you keep a list of out-of-town numbers, you'll find calls are put through much faster—often in 30 seconds.

TIPS FOR TOP LONG DISTANCE SERVICE

Ways to save money and minutes on out-of-town calls

1. **TOWN NUMBER**
2. **NUMBER**
3. **NAME**—if call is for a specific person

1. Reduced rates begin at six in the evening . . . and between six and seven is a good time to call. Long Distance rates are low. And nights and Sundays are a particularly fine bargain. For \$2.00 or less (plus tax) you can make a station call anywhere in the country. After the first three minutes, time is charged by the minute . . . not as another three-minute period.

2. For best service, place your call with the operator like this: First, tell her the name of the town you're calling . . . then the telephone number (or the name and address). Next, if it's a person call, give her the name of the one you want to reach. And if you've made notes ahead of time, you'll find you can say as much in three minutes as in an average letter.
