### Mrs. Flint Resigns Home Extension Job

Mrs. Mabel Flint, county extension agent in home economics has resigned from the extension staff of Oregon State college, effective June 1 to join her husband in Iowa.

Mr. Flint, who graduates from Iowa State college in Ames, June 9, will join the Soil Conservation staff at Audubon, Iowa, June 15.

Mrs. Flint came to Morrow county in September 1948 to supervise the home economics program within the county for adults and 4-H club members. Extension units were reorganized and have carried a full program in clothing, home furnishings and nutrition. The 4-H club program was more firmly established due to a second agent's attention.

The new agent will come to fill this vacancy during the summer months in time to assist with fair preparations and the fall adult program.

Mrs. Emma Evans drove up from Portland Thursday of last week to spend the memorial week-end here. She has been in Portland most of the time since the beginning of winter.

her parents, Mr. and Mrs. Lewis Ball. Mrs. Ball and Betty and Ellis and Wayne Ball spent one day last week in Pendleton and Hermiston.

Gene Glock and children of Vancouver, Washington are visiting relatives here. Mr. Glock is a cousin of the Rietmann brothers and a former resident here.

Cotter, low. Pinocchio, Mrs. Charles O'Connor high and Mrs. Omar Rietmann low. The hostesses, Mrs. Milton Morgan and Mrs. Lundell served refreshments. The next study meeting will be at the Charles Carlson home June 2.

Dates to remember: June 1—Rebekah meeting at 8 p.m. June 2—Clean-up day at Grange hall, study meeting of Topic club at home of Mrs. Charles Carlson. June 6—Auxiliary and Legion meeting.

### Eastern Oregon in Position to Offer Laboratory Site

Assurances that Eastern Oregon would be considered, along with other parts of the country, as a possible site for the \$11,000,000 Army Quartermaster Corps Research Laboratory have been obtained by Congressman Lowell Stockman of Oregon from the Research and Development Board of the Department of Defense.

The laboratory which has been authorized by the 81st Congress, will be used for research and development in the field of chemical and plastics; environmental protection of man; physics, biology, and chemistry; textiles, clothing, and footwear, and mechanical products.

It is estimated that approximately 700 persons will be employed by the facility and that the project will require from 8 to 15 acres of ground, together with the availability of 7,000-9,000 KW of electrical energy; and cooling water from streams, rivers or bodies of fresh water amounting to 4,000 to 11,000 g.p.m. for extended periods of time for the condensing equipment.

Site proposals will be considered for both privately-owned property and government-owned lands and buildings. The Board states it is considered desirable to avoid highly industrialized areas, but the locality selected should be in vicinity of population centers with housing and schools for employees and their families, as well as hotels and restaurants as laboratories would be held at the laboratory which would be attended by 200 or more persons. Consideration will be given to the matter of a cultural environment suitable for personnel of high technical and scientific attainments. While nearness to Washington, D. C. is also considered desirable, the Board has assured Congressman Stockman that they will consider impartially all parts of the country.

Representative Stockman states he will be glad to send anyone full information for use as a guide in preparing proposals for the location of this project in any town in Eastern Oregon, and that August 1, 1950, is the deadline for submitting of such information to the Site Selection Committee of the Research and Development Board.

**NEW QUIET ENGINES**  
You get to know part of the quality story behind Ford's V-8—the type of engine powering America's costliest cars—when you discover its amazing quiet. For though it's the low-price field favorite for getaway, it never raises its voice. And Ford alone in the low-price field offers you a V-8 or "Six."

**NEW "HUSHED" RIDE**  
Your ride is relaxingly quiet, too! "Sound-conditioning" keeps noise out. And you drive cradled in the solid comfort of Ford's low, level "Mid Ship" Ride... with the sure-stopping safety of Ford's 35% earlier-acting King-Size Brakes.

**QUIET "LIFEGUARD" BODY**  
Open the door of a '50 Ford. Then let it close. Listen to the solid thud as it shuts on Ford's new nylon-plastic shock absorbers. This new Ford's "Lifeguard" body is 13-ways stronger and so far ahead in style that it earned Ford the Gold Medal Award as "Fashion Car" for the second straight year.

**ARTHRITIS**  
Hundreds Claim Its Grip Broken!

Dear Friend:  
Do you have Arthritis? Have you a relative or friend that is suffering from this painful, distressing ailment? I came upon a simple remedy, that ended my long search and battle to rid myself of Arthritis. I had my teeth pulled, tonsils out, serum shots, electric fever treatments, special built shoes, hot baths, pills and salves. The Arthritis withstood them all, and examination in several of the best known clinics could detect nothing. Finally, I discovered Sulgyl-Minol. Today, after seven months I am more free of pain and soreness than at any time in twenty years. Can work ten hours a day, with nothing more than tired feet. Legs, hips, back, neck and arms are practically free of pain and soreness. This has cost me less than six dollars.

This is all I did, and all you will have to do to try Sulgyl-Minol. Just rub it on the soles of both feet before going to bed. A bottle will last about a month and will be enough to tell whether it will help. If it helps, keep it up for a month, and after that, just as you feel, if my feet feel sore from too much activity, I rub some on for a night or two. In my opinion, the benefits of Sulphur are more sure and complete on the soles of the feet. The results obtained have been acclaimed by many as a Godsend.

Often I have asked the question, "Why can't something be done to help me?" I sincerely believe that here is something that will help people who are suffering from Arthritis and want to tell as many as I can about it. I am sure you do, too.

(Signed) WALTER W. GRAMER.
