PRUDENT ADVICE Franklin D. Roosevelt (in 1932): "Any government like any family, can for a year spend a little more than it earns. But you and I know that a continuance of that habit means the poorhouse."

SUNDAY WORST TRAFFIC DAY OF ENTIRE WEEK Sunday topped all other days of the week in traffic deadliness in Oregon last year with 67 fatal accidents, the state traffic safety division reported.

Saturday ran a close second with 60 fatal smash-ups, resulting in a combined weekend traffic toll of 127 throughout 1949, the division said. Least fatal accidents were recorded on Tuesday, with a total of 25, and Thursday, with 28.

Heavier rural highway traffic volume due to weekend driving is the main underlying factor, officials said, which increases the chances of mishaps at high speed. Worst killers in 1949 were accidents in which a car ran off the roadway, overturned in the roadway, or struck a fixed object, most of them due to loss of control at excessive speed.

As the presidents were installed in office, Joan was presented with a carnation lei which had been air expressed from Hawaii. It was a gift from 4-H boys and girls there, and had been sent by Miss Eunice Johnson, former local 4-H club leader in Multnomah county. Bud received an orchid boutonniere.

As in past 4-H club summer schools, the morning programs were devoted to classroom and laboratory work. After the assembly program each afternoon, recreational activities were conducted.

The record enrollment at the 4-H club summer school was 2,055 in 1941. Only one other enrollment surpassed the session now ending. It was in 1939 when 1,985 boys and girls attended the annual 10-day session.

Among announcements made during the current session was one to the effect that Miss Joan Howell, Klamath county 4-H club extension agent, would receive a National Fellowship sponsored by the federal extension service and the national committee on boys and girls 4-H club work. It will allow her to take advanced work in Washington, D. C. from September through June 1951. She was a former 4-H club girl in Clatsop county and later was graduated from OSC.

County Agent Anderson returned last Friday from Corvallis where he had spent the past four days with 4-H club members attending summer school. The Morrow county delegates arrived on the campus about 6:00 p.m. on June 13. Their baggage however, which was trucked down by Henry Jaeger, Condon, and Ronald Baker, Ione did not arrive until about 10:30 p.m. Road construction on the Columbia river, highway slowed the boys down and several long waits were necessary.

Speaking on the KOAC radio program Thursday evening June 15, were delegates Jean Marie Graham, Joan Wilson, Joan Breeding, Vyanna Boylan, Ronald Baker, Nancy Califf with their chaperone Mrs. Lola Breeding.

By the time this appears the 35th annual 4-H summer session will be ended and the 1909 boys and girls who attended will be returning to their homes. The Morrow county group are scheduled to arrive in Heppner, Irigoin, and Boardman sometime Friday evening.

Recently announced are the district 4-H tours scheduled to begin on June 29, continuing on throughout the state until August.

These are 4-H livestock and crops tours visiting livestock operations and farms where members can see good cropping practices, soil conserving practices and other items of interest to them. Livestock judging and crop identification work is included.

Morrow County club members will attend the Blue Mountain tour which will tour Umatilla and Wallawa counties. It will be held on July 17, 18, and 19.

NEW MASSEY-HARRIS COMBINES HAVE MORE CYLINDER CAPACITY More efficient cylinder and beater design lets you harvest faster.

★ More cylinder capacity lets you cover more acres a day... up to 50 with the new Massey-Harris big capacity "28"—up to 70 with the "27"—the biggest capacity combine on wheels. You move along at a good clip because straw is kept open... loose, to give the rasp bar cylinder a better chance to rub out the biggest percentage of your grain. Leaving the cylinder, straw moves directly onto the longest, wider walkers so you get all of your grain, cleaner grain to increase your profits... more capacity in the entire combine to get your grain in faster, easier, at less cost. And Balanced Separation This amazing new Massey-Harris combine principle assures perfect control of grain and straw through every step of harvesting. Every unit has the capacity it needs to do a better job of harvesting your grain. Stop in soon for complete details on these new, better Self-Propelled.
