

More Monument - -

Mr. and Mrs. Nick Cimmiyotti have a temporary house almost completed. They are constantly expressing their thanks to the many friends who helped them when their house burned.

Mr. and Mrs. Richard Cox were in town Sunday from the Gilmore ranch.

Mr. and Mrs. Willard Gilman were in Monument Friday from their ranch home. They came for a weeder which was at Lynn Forrest's.

According to reports from the guard station there have been five fires in the Ritter area but none of them has been serious.

The auxiliary Legion and grange sponsored a dance Satur-

day to choose a princess from the area to attend the queen at the Grant county fair this fall. The gym was donated, also the music by the Rimrock Serenaders, and the supper. The proceeds were given to Darlene Capon to help pay her expenses. Darlene is the daughter of Mr. and Mrs. George Capon and was princess of the Spray rodeo.

Mr. and Mrs. F. W. Lynch of Baker were attending to business matters in this community Monday. They have a ranch on Cottonwood. They were accompanied to the ranch Monday by Tom Ross and Leo Flower.

Mr. and Mrs. Lawrence Cutts and children of Heppner were guests of Mr. and Mrs. Clayton Griggs Sunday.

News from C. A. Office

Tractors Continue Lead in Causing Fatalities on Farm

Oregon farms continue to make news for their owners, operators and hired hands throughout the year in a steady stream of news accounts published in local papers relating farm accidents that result in death, permanent injury or work time-loss for their victims, according to the Oregon Farm Safety council, which adds that this week, July 23 to 29, is National Farm Safety week.

by the council recorded 36 deaths from farm accidents during the calendar year of 1949 as compared with 34 deaths for the previous year. Tractors continue to lead as contributing factors for accidents, accounting for 15 of the 36 deaths counted.

Purpose of National Farm Safety week is to encourage all farm residents to learn and obey farm safety rules.

The dubious honor of being involved in the state's most unusual 1949 farm accident goes to an individual who received painful cuts resulting from kicking out a window.

Overturning accounted for nine of the tractor deaths, two of them involving children.

The Oregon Farm Safety council is composed of farm equipment dealers, and representatives of farm organizations, the state department of vocational

agriculture, O. S. C. and the state industrial accident commission. Chairman is F. E. Price, assistant dean, O. S. C. school of agriculture.

James E. Wiles, farm representative of the state industrial accident commission, says that facilities covered by the state workman's compensation law are continuing unchanged; time loss accidents have shown a decided increase during the past five years. The commission he represents handles about 11,000 agricultural accounts, a small percentage of the state's total farm population.

Nationally, 17,500 farm accident deaths occur annually as well as 1,500,000 disabling injuries. Approximately 35,000 farm buildings are destroyed by fire.

Plans for livestock sheds beginning at 24 feet in length are now available from the Oregon State college farm building plan service. Copies of the working drawings which show construction details may be seen at the local county agent extension office.

following lengths sheds: 24, 30, 34, 36 and 38 feet, according to H. G. Huber, O. S. C. extension agricultural engineer. A nominal charge is made for the plans.

In addition to the plans for buildings used in a loose housing system, other plans are available for approved milk houses, milking parlors, milking barns and a covered hay rack.

The loafing shed plans show frused gable roofs. They are designed without center posts in order that the buildings could be easily converted to machinery storage or other utility purposes. The working drawings show plans for laying out rafters, their lengths and details for building ties and braces.

County extension agents will show and discuss plans as well as offer assistance in placing orders for the working drawings.

Prominent sheep breeders from throughout the Willamette valley have consigned 137 rams and 30 ewes to the tenth annual Willamette Valley Purebred Ram and Ewe sale in the 4-H fair building, Albany, starting 9:00 P.M. Saturday, August 5, the sale committee has announced.

Sale catalogues are now available and may be obtained by writing to O. E. Mikesell secretary, Willamette Valley Purebred Ram and Ewe sale, Courthouse, Albany. Mikesell is Linn county extension agent.

Animals representing 10 breeds are being offered. They include Romney, Lincoln, Corriedale, Cotswold, Columbia, Shropshire, Suffolk, Southern and Hampshire.

In addition to Mikesell, sale officials include E. R. Hubbard, Corvallis, manager; Claud Steusel, Salem and Eldon Biddell, Independence. Animals offered are guaranteed breeders and will have been passed by a sifting committee before entering the ring.

WARNING!!

A permit is necessary to build outside fire (except in approved incinerators). Absolutely no burning after 12 o'clock noon.

By order of City Council

Where in the world would *you* make a landing?

Suppose we didn't have Reddy Kilowatt here with us now, doing all his magic services for just a few pennies a day.

Suppose he were just cruising around in the stratosphere, looking over the world for a likely place to land.

Which country would *you* advise him to choose as a place of opportunity and individual freedom?

Where would Reddy find the most prosperous and progressive people, able and willing to take advantage of the wonderful things he has to offer?

Where would Reddy find a government which would let him be a free and self-reliant citizen, instead of making him a dull slave of political commissars?

Where, in the world of today, is the best place you know for an energetic young fellow to live and work?

We think your answer would be the same as ours—the United States of America!

But what could you say if the government here owned the railroads, the mines, the electric companies, the house you lived in and the medical clinic where you and your family had to go for treatment?

Where *could* you find freedom if it ceased to exist here?

That is something to think about when you read or hear of socialist-minded people urging Uncle Sam to go step by step down the road which always has ended in disaster.
