YOU PAY HIM LESS FOR OVERTIME!

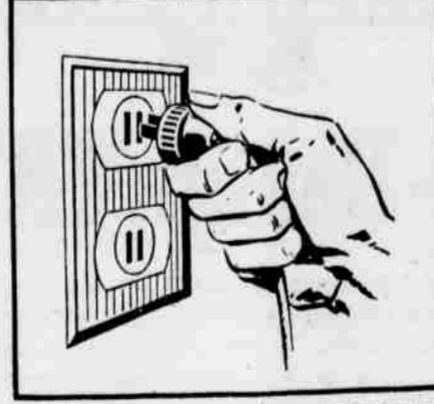

Reddy Kilowatt is working longer for you, running more labor-saving appliances. Yet, the longer he works, the lower are his hourly wages. Today Reddy's pay for housework averages only about half as much per hour as ten years ago. Can you think of anything else that has gone down and down in price?

THE COST OF LIVING is up 50% since 1940. But PP&L's average price for household electricity is down 40%!

RATE CUTS SINCE 1940 have meant total net savings of nearly 18 million dollars to users of PP&L's electricity!

TODAY'S BIGGEST BARGAIN! Residential electric rates here are less than half of the national average.
