## A Word To Contributors And Correspondents

It is the desire of this newspaper to publish the contributions of subscribers and correspondents, but due to the conditions under which we find we must operate it is expedient to ask that articles be curtailed. When stories of considerable length come to the desk it is necessary to edit them—to use the shears, in other words. This takes time that should be used in preparing our own copy. We may often cut things out that seem important to the contributor and this is done mainly because of a shortage of space and an effort is made to trim without losing the trend of

the story.

We are sorry that we cannot give space for detailed accounts of games, social functions and the like, but we are more than pleased to have reports on these affairs and want them to continue coming in. Make them terse—give the highlights without lengthy detail. The average reader has imagination enough to fill in between the lines, and really prefers to do that very thing.

Until such time as we can secure, and, we hope, keep a linotype operator, it will be necessary to keep the paper down to a size that a limited staff can produce. To cover the news in general, a limitation will have to be placed on contributed items and correspondence.

At this time when the entire world is engaged in a struggle between Godless Communism and Capitalistic Christianity

TENTH NATIONAL BIBLE WEEK, which is to be observed October 16-22, takes on a special significance. For the Bible is the Law Book of freedom-loving peoples.

The Holy Bible is the cornerstone on which America was built. In the Second Epistle of Paul the Apostle to the Corinthians 3:17 we read: "where the Spirit of the Lord is, there is Liberty." That is the precept on which the Founding Fathers fashioned our great Constitution, under which this nation has scaled the heights.

In the Second Epistle of Peter 2:19 is prophesied what has happened to the unfortunate peoples of the world, who voluntarily or involuntarily have fallen into the clutches of the monsters of the Kremlin: "While they promised them liberty, they themselves are the servants of corruption; for of whom a man is overcome, of the same is he brought in bondage."

In March, 1940, recognizing the need of reawakening our citizenry to a realization of the fact that "America was founded on man's consciousness of God, man's daily labor and the fruits therefrom," a small group of laymen of all faiths founded the Laymen's National Committee. This group knew that this land of freedom could not have come into being without a consciousness of God; that America cannot endure if this consciousness be lost.

For the past ten years the Laymen's National Committee has sponsored National Bible Week. It believes that of all the guides to a better civilization, the oldest is still the best—THE BIBLE—the book that inspires, comforts and challenges all who have the wisdom to turn to it. It further believes that if more people make Bible reading a habit, justice, understanding and peace will prevail.

your religious freedoms, because "FREEDOM TO WORSHIP IS THE GREATEST OF ALL FREEDOMS."

General Omar Bradley has warned us that "The greatest of threats from Communism is directed to our spiritual freedom." The subjugated peoples of Poland and the other countries Russia has grabbed, who have lost their freedom to worship, were they able to speak, would advise us to heed General Bradley's warning.

It is the hope of the Laymen's gotten the treasures that lie behind the covers of the Good Book, will take it off the shelf, dust it off and browse through it during National Bible Week. Having rediscovered what has made the Bible a perpetual "Best Seller" (it is estimated that more than a billion copies have been printed up to this time), they may then make Bible reading a daily habit.

Remember the date — TENTH NATIONAL BIBLE WEEK, October 16-22. Why not refresh your soul by reading the "Immortal Law Book of Civilization" during that week and every week thereafter?

Lewis, Josie and Florence Hillard of Tacoma visited their old home in Monument this week. They took pictures of the house. Mrs. Josie Round owns the house. Their father, Pete Hillard, built the house years ago.

Louisa Fleming and Anna Lesley were attending to matters of business in Pendleton, Wednesday. Mrs. Fleming consulted a doctor.
