State School Support has REDUCED PROPERTY TAX

Oregon state school support has brought outstanding benefits to Oregon's schools and Oregon property taxpayers. State support has played a vital part in providing needed equipment and supplying necessary teachers for Oregon's surging school population.

It has saved MORROW county property taxpayers \$487,981 in the past 7 years

To educate Morrow county boys and girls for the past 7 years required local property taxes of \$1,400,013. In addition, state school support from income tax sources supplied more than \$487,981. In other words, for every \$3.00 raised by local school district property taxes, another \$1.00 has come from state sources.

School population will double in 10 years
 More state aid is needed to relieve rapidly increasing local district property taxes.

Who Runs America?

the Congress? the President?

OR YOU AND THE MAN NEXT DOOR?

RUNNING AMERICA is the joint job of 150,000,000 people. It's the biggest job in the world today—keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

IN MUCH OF THE WORLD today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

FREEDOM COMES UNDER ATTACK. The reality of war has made every American think hard about the things he's willing to work and fight for—and freedom leads the list.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory Health Insurance, falsely presented as a new guarantee of health "security" for everybody.

THE PEOPLE WEIGH THE FACTS. In the American manner, the people studied the case for Socialized Medicine—and the case against it.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists—working in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for Americans—and for the world.

THE "GRASS ROOTS" SIGNALS CONGRESS. In every community in the Nation, people stood up to be counted on this important issue. Thousands of local women's clubs, civic groups, farm, business, religious, taxpayer, medical, educational and patriotic organ-

izations spoke out—giving the great United States Congress its unmistakable Grass Roots signal from home!

And ever watchful, ever sensitive to an alert people, The Congress saw that signal, and heard the people speak out, loud and plain. That's democracy in action. That's the American way!

Today among the 10,000 great organizations on militant public record against "Compulsory Health Insurance" are:

- | | |
|---|--|
| General Federation of Women's Clubs | American Legion |
| American Farm Bureau Federation | National Association of Small Business Men |
| National Grange | United States Chamber of Commerce |
| Veterans of Foreign Wars | National Association of Retail Grocers |
| National Conference of Catholic Charities | National Retail Dry Goods Association |
| American Protestant Hospital Association | American Bar Association |

• Doctors of this Nation are grateful that the people refused to be wooed by the fantastic promises of this un-American excursion into State Socialism. • Doctors of America are dedicated to serve their fellow citizens at home and their comrades in uniform, wherever service to this Nation may take them. • And the thing they stand ready to fight for—to sacrifice for—to die for—is not the alien way of life of Socialism, but the proudest security of a free and self-reliant people!

THE VOLUNTARY WAY IS THE AMERICAN WAY!

• Throughout the Nation, free men and women, working and planning together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are in healthy competition—sponsored by doctors, insurance companies, hospitals, fraternal organizations—by industry, agriculture and labor. • Today

in America—70 million people are protected by Voluntary Health Insurance! • Throughout the Nation, families are insuring themselves against the major costs of illness—at reasonable, budget-basis prices. Voluntary Health Insurance takes the economic shock out of illness. Protect your family now. • For information, ask your doctor—or your insurance man.

An American's greatest heritage is the right to learn the facts—and to speak his mind. Maintained with honor and used with sincerity—that right will guarantee forever that

You and Your Neighbor Run America!
