#### STATE JOBS IN FLUX

Higher wages paid by private industry have been drawing state employees off their jobs at a rate averaging 450 a month since last April.

The turnover of state employes for September is 100 per cent greater than during the same month last year.

State officials who would like to meet the going wage and keep experienced employes are stymied as all departments (with the 11.25 exception of the self-sustaining boards) are on a salary budget made by the 1949 legislature applying wage scales prevalent in

The emergency board affords the only avenue of relief, however, the bottom of the emergency fund barrel has been in sight for two months.

State employes have good working conditions in which to improve their earning abilities and become more valuable to the state with continuous emplayment. When the state loses trained workers it loses money 291.92 by disruption of organization and 252.42 in the training of new workers.

#### WAGES UP 243.65 UNEMPLOMENT DOWN

With the highest average wages ever paid the cross-section of labor in Oregon, unemployment reached its lowest peace time level in history, the state unemployment compensation commission reported Monday.

Only 12,420 persons are actively looking for work, compared with 14,820 a month ago and 26, 000 in October, 1949.

More than 50 per cent of the job seekers are women, more than 20 percent are not located near job openings and 25 per cent are older workers and others unable to meet the requirements of the more than 3,000 unfilled jobs listed at 29 local employment offices of the state.

#### OUR TAXES NEAR TOP

When the federal census bureau this week reported Oregon taxes are the seventh highest in the country, even the tax-wise state tax commissioners were as. tonished. Oregon's taxes were \$75.98 per person.

Washington's \$97.76 per capita in state taxes is the highest in 354.95 the country. Louisiana is second,

Umatilla Concrete Mix Co. 297.00 and California third with \$91.41. New Jersey has the lowest tax. es, per person.

## 3.00 TAX REFUNDS UNCLAIMED

More than 5,000 Oregon people out leaving a forwarding address. 6.00 The state income tax commission has that number of checks that 6.00 have been returned.

Tax Commissioner Ray Smith, in charge of the income tax divi-1061.33 vision, said th echecks represent 32.40 total of \$52,500 and average \$10.-56.70 50 each.

Approximately 18,000 refund claims are yet to be processed, Smith said. He predicted many more checks would be returned undelivered this year.

### Mrs. Ellis Erwin has returned TO ADVERTISE NORTHWEST
