

IONE CARDINALS LOSE TO McEWEN HIGH EIGHT
 The lone Cardinals again felt the pangs of losing a hard fought football game when defeated by Athena's McEwen high school 8. The Cardinals were the victims of a 37 to 7 purge.
 McEwen's first score came early in the first quarter. Their second goal came in the first minute of the second quarter when Frank Bear made a spectacular run. Almost immediately Kenny Williams intercepted a pass of Duane Baker's and set up the machinery for the third score in the half by Gary Van Oaker.
 The third quarter saw two more McEwen touchdowns and gave

the home team a lead of 30 to 0. A fourth quarter goal with conversion set up the heavy 37 point margin that won the game. Still driving hard the lone team set up a series of long passes that culminated in their only touchdown with Duane Baker bucking the line for the goal and Gene Doherty kicking the extra point.
 Ione has two more league games away from home with Stanfield and Weston which will wind up the football season.

CLEAN...VIGOROUS...EFFECTIVE LEADERSHIP

Governor DOUG. McKAY is doing the job the people of Oregon want done!

- * The integrity of his administration has justly earned the confidence of the people.
- * While many states are floundering under huge deficits and increasing taxes, Oregon's budget is balanced. We have avoided here the epidemic of deficit spending.
- * In no other 20-month period of Oregon history has as much BEEN DONE in modernization of our state institutions, construction of new buildings for higher education, highway development (and on a pay-as-you-go basis!), tourist travel, peace-time industrial expansion, coordination of state agencies dealing with resource conservation and development, and effective budget control of state administrative expense.

A Governor to trust with Oregon's Future!

IT MAKES SENSE TO ADJUST THE BASIC SCHOOL FUND

The increase will accomplish 3 things:
 1 It will equalize support by placing a part of the increased school load expense at state level, instead of ALL at district property tax level.
 2 It will distribute school expenses to ALL the people, not just to property owners.
 3 It will distribute money in proportion to attendance so that every Oregon child has an even chance.
Oregon's children need your help!

is this YOU?

Most women here are letting Reddy Kilowatt do more and more of their housework.

And why shouldn't they? The longer Reddy works, the less per hour is his pay. Almost everything you buy costs more than ten years ago, except the services of Reddy Kilowatt, your low-cost electric servant.

THE COST OF LIVING is up 68% since 1940. But PP&L's average price for household electricity is down 40%!

RATE CUTS SINCE 1940 have meant total net savings of nearly 18 million dollars to users of PP&L's electricity!

TODAY'S BIGGEST BARGAIN! Residential electric rates here are less than half of the national average.

DON'T BE Confused

TIME CONFUSION IN HIGH EDITORIAL CIRCLES

Excerpt from Editorial Page, Canby Herald, September 28, 1950; by Thomas W. Gerber, Editor

If you know any brave word-and-phrase explorer who happened to read the editorial comments of both the *Oregonian* and the *Journal* Sunday (Sept. 24) on the subject of so-called daylight saving time and the bill to be voted upon November 7, watch him carefully for a few days. He may begin cutting out paper dolls or trying to pick daisies off the ceiling. But he'll recover. A few paragraphs of Bob Ruark or Drew Pearson probably will put his trolley back on the wire.
 Both of these eminent newspapers seem to have assigned the top experts of their Departments of Utter Confusion to the task of befuddling folks about Oregon's little argument as to the measurement of time. We doubt if there was collusion, however. Both writers started their arguments from erroneous premises, but from different ones.
 The *Oregonian's* word-slinger set up a straw man for his shadow-boxing. He started off by advising people to give some thought to the "obscure" measure on the ballot "which has been miscalled a 'daylight saving' bill," and which, he says, is "a legislative phony."
 Great Scott, where art thou? Nobody has been calling this measure a daylight saving bill. It says right here in the title it is a measure "TO ESTABLISH STANDARD TIME." It says so emphatically in the text. The act contains a safety-valve by which the governor may change the state's time in case of dire necessity, which is a good, flexible provision, although it is unlikely any governor would invoke it.
 The *Oregonian* author says he'd like to see a clear-cut state vote on Standard versus Daylight time. Okay, son. You'll get it.
 The *Journal* man simply got his facts tangled. In the blithely informal style which causes readers to feel friendly without being able to understand what they've read, he wrote:
 "It's like this: The Oregon legislature adopted a bill which authorized the governor to proclaim daylight saving time, ..." etc., and: "Twas then Portland voters adopted the daylight saving amendment."
 The fact is, Portland started the whole mess by foisting a semi-annual time change on neighboring communities which had no voice in the matter. Portland voters adopted it by a very narrow margin, but they did adopt it. THEREAFTER the state legislature almost unanimously passed the law establishing standard time in Oregon. The primary purpose of the law was to bring about uniformity and prevent Portland from continuing to inconvenience other sections of the state. Putting it somewhat more crudely, the law was intended to correct Portland's bad manners. The *Journal* writer complacently and erroneously concludes that he will get daylight saving time if the state law is adopted by the voters. Tain't so, Joe.
 Local autonomy is a workable and efficient political principle in matters affecting only local communities. When the effects of local legislation react far beyond the municipality which enacts it, intervention from a larger political unit becomes necessary. The Oregon legislature acted wisely.
