From where I sit... by Joe Marsh

I Have A "Close Squeak"!

Spent last Saturday morning wandering all over the house. Wherever I went—upstairs or down—I kept hearing a "squeak." Couldn't find out where it was coming from until noon-time when the missus came home from her weekly shopping.

"Listen," I says to her, "hear that squeak?" I started walking real quiet-like across the kitchen and there it went again! "Joe Marsh," she laughs, "that is nothing but your suspender clips rubbing back and forth when you walk!" And darned if it wasn't! From where I sit, I'd been let-

ting a little thing become a serious problem. Like some little difference of opinion or taste will start off a great big argument. I may prefer a temperate glass of beer with my dinner—while the missus likes tea—but we figure that no two people have exactly the same likes and dislikes. So, why get all "het up" about it?

The moral is, check your suspenders—and check your temper when it comes to little things.
