## County Officials' Salaries Upped In Legislative Bill

Responding to a recommendation from the Morrow county budget board, which includes appointed members and the county court, Rep. Henry Peterson had a bill prepared and presented to the legislature providing an increase in the salaries of elective officers for Morrow county. Under the terms of the bill, which followed a recommendation of the board after a meeting on January 30, each of the five elective officers' salaries would be raised \$50 per month. After some consideration, the court and budget committee met again February 19, at which time an amendment was offered to the first recommendation calling for omission of the treasurer's office from the increase. This was based on the grounds that the office is not necessarily a full-time job and as such is amply cared for in the present salary.

The recommended raises are as follows: County judge, from \$3,600 to \$4,200; county clerk, from \$3,600 to \$4,200; county sheriff, from \$3,600 to \$4,200; county assessor, from \$3,000 to \$3,600. The treasurer's salary is \$2,400.

## Fossil Edged Out By Heppner 48-46 In Season Ender

### Mustangs Avenue Earlier Defeat on Visitors Floor

The Mustangs of Heppner high who have developed into a very polished basketball team this season, added another victory to their list of victims as they tripped the Fossil Falcons by the thin margin of 48-46, in an exciting, last scheduled home game of the 1950-51 season. This hard-earned victory avenged an earlier 49-42 loss on the visitors' home floor.

The game was close thruout, with never more than a six-point spread separating the two rivals. Fossil had quarterly leads of 15-14; 29-26; 37-37; then Marion Green, Gary Connor and Jimmy Prock waxed hot, insuring the victory.

Marion Green, showing remarkable season progress, put on an offensive outburst to the tune of 15 points, high for the contest. Captain Gary Connor contributed 14 points to the cause from his pivot position, and Jack Sumner checked in with 9. The two guards Smith and Prock finished up with five timely points. Jellinek with 12 and Crafton with 10 paced the losers. Harrison, ace Falcon forward was bottled up effectively by the tight defensive work of Gary Connor. Jim Prock, high scoring Mustang guard, was "whistled down" for four infractions before the first half and was forced to play at reduced efficiency. As a team the Heppner squad looked very sharp on their play patterns and time after time worked the ball past the Fossil defense for easy shots and baskets.

## Heppner B Squad Wins 18 Loses 3 In Season of Play

The strong Heppner B squad, by defeating the Fossil Bs have increased its season's record to the remarkable and respectable record of 18 wins and three losses, losing only to the Lone Reserves and splitting with the Echo Reserves.

This group has shown marvelous spirit throughout the season which has paid off in victories, and will be greatly welcomed into the Heppner varsity in future years, putting Heppner basketball again on the upgrade.

The B's were spearheaded by sophomores and freshmen who have mastered the fundamentals of basketball well and will perform for HHS well in this fast thinking game.

Wesley Marlatt	146
Jack Sumner	136

Bill Hughes	62
Darrel Ployhar	53
John Mollahan	34

Jack Sumner had the best game average with 9.7, but was elevated to the varsity after 14 games. He was followed by Roland Taylor with 7.9; and Wesley Marlatt with a 7.7 average.

This group of boys has been able to generate a lot of speed and used the fast-break effectively throughout the season, which is something the Heppner teams in years past have been lacking. Coach Whitbeck states "They were a fine group to work with, and they made practice sessions enjoyable."

## Donaugh Answers Queries Regarding Slaughterer Ru'es

As questions on the government's meat slaughter control program continue to come to the Office of Price Stabilization in the Lincoln Building, Portland, Carl C. Donaugh, director repeated details of the measure designed to prevent black market sales and insure normal distribution.

The regional OPS office in Seattle has appointed F. L. Murphy long time Carstens Packing Company sales executive from Sumner and district meat specialist for four years during the OPA, as acting regional meat specialist to supervise the program of slaughter licensing and quotas in Oregon, Washington and Idaho.

By March 15 all slaughterers except farm slaughterers must register with the OPS. Starting April 1, slaughtering volume will be regulated by quotas based on 1950 experience.

From now until April 1, no slaughterer may slaughter cattle, calves, sheep and lambs, or swine unless he was engaged in slaughtering that species of livestock in the period January 1, 1950 to February 9, 1951.

ject to federal meat inspection and must register with the national office of OPS in Washington, D. C.

Class 2 slaughterers are not federally inspected, but kill and sell more than 6000 pounds of meat annually. The regional OPS office in Seattle will issue licenses to them and allocate monthly quotas based on killings for each plant for comparable months in 1950.

"Farm slaughterers" are in Class III. They killed and transferred less than 6000 pounds of meat in 1950 and are not required to register.

Their quotas are set at their volume for the six-month period March 1-September 1 but in no event more than 3000 pounds for each six months.

A second restriction on farm slaughterers is that they may not transfer—which means sell, deliver, exchange, give, lend, consign or place in warehouses or locker plants meat to any individual who receives meat for sale whom they did not supply in 1950.

Meat which is transferred must be tagged on each leg and each wholesale out identifying the slaughterer as Class III, and giving his name and address. Invoices for the meat must be prepared and preserved for inspection and must include names and addresses of both buyer and seller.

A farm slaughterer must live at least six months a year on a bona fide farm which he operates. Livestock may be slaughtered for the home consumption of its owner if: (1) he operates a farm on which he resides six months per year; or (2) he actually superintends the raising of the livestock on his own premises for at least 90 days.

## Retailers Given Time to Prepare Pricing Records

Retailers have been given an extension of time until March 22 to prepare their base period records and ceiling price lists as re-

quired by the general ceiling price regulation, Carl C. Donaugh, Oregon district director of the Office of Price Stabilization announced Monday.

Originally the OPS had set March 1 as the deadline for the preparation of base period records and price lists.

The required records and price lists are kept at the place of business, not filed with the OPS office, Donaugh explained. They include list of categories or services delivered or offered during the base period, ceiling price lists, and statement of customary discount, price differentials and classes of purchaser.

Full details are contained in the general ceiling price regulation available at local banks and at the OPS office in the Lincoln building, Portland, Oregon.
