From where I sit... by Joe Marsh

Watch Out For The "Blind-Spots"

Stopped by Squint Miller's farm the other day and saw a vinegar bottle in his kitchen with an oversized cucumber inside it. The cucumber filled the whole bottle.

"What's a cucumber doing in there?" I asked him. "That's my 'blind-spot' reminder," says Squint. "My grandmother kept one in her kitchen to remind her to take stock of herself now and then.

"I slipped that bottle over the cucumber when it was just starting to grow on the vine," he went on. "And like certain viewpoints, not noticed, it just grew and grew — now it's there to stay."

From where I sit, we could take a cue from Squint and watch for our own "blind-spots" and prejudices before they grow too big to get rid of. We've got to respect our neighbor's right to his preferences... preferences for a certain make of car, a favorite movie star, or a temperate glass of beer after work. We won't be tripped by any blind spots if we keep our eyes—and minds—open!

Re-routing Long Distance circuits—one of the many interesting, vital jobs for women in the telephone business.

THE GIRLS BEHIND EACH TELEPHONE "HELLO"

Theirs are important jobs—and they do them well

1. Here's one business where the spotlight's really on women. Because of the nature of telephone work, nearly two out of every three telephone people are women—a high percentage. And they must be capable, well-trained women to handle your calls efficiently and serve you well in our offices. We train them, at our expense of course. And they earn good money in this important work.

2. Practically every sort of job—from accounting to teaching—can be found in our business. In addition to good pay, the girls have the security of the company-paid Benefit Plan and enjoy holidays and vacations with pay. All know they have a good chance to advance as their ability grows. Perhaps the best evidence of the importance of women to us is that hundreds have management jobs.

3. It would be hard to imagine work for women today more important than a job in our nation's telephone service. For now, more than ever, our country needs swift, reliable communications to help speed the job of defense. And it's reassuring to know that in these days of high prices on most everything, you still get a bargain when you buy telephone service. Here in the West, on the average, telephone rates are up less than half as much as the cost of living.
