A doctor was called to Lexington Monday to see Elwynne Peck and Cecil Hicks, who are both ill with the flu.

Word has been received of the birth of a daughter to Mr. and Mrs. Jay Griffith of Enterprise. Mrs. Griffith is the former Eva Padberg of Lexington.

County Agent News . .

With spring just around the corner, many farmers are making plans and a few are preparing seedbeds for pasture and hay seeding. First seeding to be completed in Morrow county was a 30-acre pasture seeded by Stanley and Fred Magill on lower Willow creek near Cecil. This pasture was seeded to a mixture of six pounds of alta fescue, three pounds of intermediate wheatgrass and three pounds manchar smooth brome, per acre, on February 20. Since the seeding was made in a poor stand of alfalfa, the legume will be provided by this partial stand. This seeding will replace hay grown for sale and provide a high income by providing pasture for the herd of cattle for which the Magills had in the past rented pasture.

Previously reported the Joe and Claud Crouch pasture seedings have been completed. This seeding of 150 acres was the largest irrigation pasture to be seeded in Boardman for many years. The mixture was Ladino clover, alta fescue and orchard grass.

Man acres of pasture are planned for seeding this spring, which will provide high incomes with a minimum of work. With the new pasture grasses and legumes developed over the past few years along with the know-how of seeding and management virtually insure the operator twice the carrying capacity compared with the past.

With the 1951 season for ordering windbreak trees from the Oregon State Board of Forestry about over, we find that the following farmers have taken advantage of the opportunity of providing comfort and beauty to their farms. Orders were made by:

Ralph Beamer, Merle Kirk, Roger Palmer, Heppner; Ronald Baker, Ione; Irvin Rauch, Ray Dolven and Kenneth Peck, Lexington.

Ralph Beamer, Heppner, won the distinction of being the first farmer to get windbreaks and shelterbelts planted, completing it on February 22. A wind break of Caragana, Russian Olive, Norway Spruce and Scotch Pine was planted on the south and east of the farmstead, while two shelterbelts for livestock were planted in a canyon close to the buildings. These three-row shelterbelts were planted to Caragana and Russian Olive. These trees are fenced for protection and will be cultivated until they are well established. They will provide beauty and satisfaction to

and adding such an improvement to their commodities.

The county agent has been noting a large number of farmers who have, in the past few months added a lot to their farms by mailbox name signs or gate post signs. This is a project that every farmer in Morrow county should be interested in as it adds a bit of personality to the farm as well as makes it considerably easier for people to find where the family as they grow in shelter as an end product. These people should be congratulated on improving their farm comfort they live. On several occasions farmers have been known to comment on this adding that enough salesmen know where they live without advertising

with a sign in front of their farm. My experience has been that a salesman can find a farm or place of business regardless.

Especially attractive are the mailboxes of Frank Anderson, and more recently Ralph Beamer, of Heppner. There are more of these about the county, I am sure, which I have not seen. The boxes have the name of the farmer on one side a picture of beef or wheat or whatever the farm is producing on the other. A farmer has commodities to sell the same as any place of business, and advertising doesn't hurt a bit.

Seven out of every 150,000 civilian adults in the United States are crippled.

4 big reasons why Pittsburgh TECHIDE is better!

1. One coat of Techide is usually sufficient—it may be applied over wallpaper, dinky plaster, concrete block, brick, etc.
2. One gallon covers an average room.
3. Easy to apply and quick to dry.
4. Washable, ordinary soap and water keeps it spotless.

Think of it, you can now redecorate a room in 3 hours—2 hours to apply Pittsburgh Techide—and only 1 hour for it to dry. Let us tell you the whole story of this amazing wall paint. Paint over wallpaper, wall board, plaster, brick, etc. with Pittsburgh Techide. It's quick—it's clean—it's easy to use. Stop in for full particulars.

Final Plans Made

The Heppner Band Boosters met Monday evening in the high school auditorium. Main business of the evening was final arrangements for housing the OSC band personnel for their performance here March 18. John Earnsdorff represented the JayCees.

Mr. Collins presented Jerry Daugherty, Judy Barger, Darlene Connor and Skip Ruhl and their French horns in two numbers, "Drink To Me Only With Thine Eyes" and "My Old Kentucky Home."

Regular club meetings are held the second Monday of each month instead of Tuesday as was mistakenly reported two weeks ago.

Find Molds For Gel Cookery Dishes in Everyday Kitchen Articles

Successful gel-cookery doesn't call for an investment in elaborate molds. Appetizing dishes made with unflavored gelatine can be molded in containers found in most every kitchen. A coffee can is used to mold a main dish; mixed vegetables go back into their own container to mold into cylindrical shape. Desserts are molded in an orange shell custard sup, or a fluted paper cup mold.

Basic Fruit Gelatine

1 envelope unflavored gelatine 1/2 cup sugar
 1/2 cup cold fruit juice 1/2 teaspoon salt
 1 1/4 cups hot fruit juice

Soften gelatine in cold fruit juice. Add hot fruit juice, sugar and salt; stir until dissolved. Pour into large or individual molds and chill until firm. YIELD: 4 servings.

For Tomato Aspic: Omit sugar, increase salt to 1/2 teaspoon; add 1/2 teaspoon onion juice or other seasonings, if desired.

Molded Sea Food: Make Tomato Aspic. When gelatine is slightly thickened fold in 1 cup cut shrimp, shredded crab meat or tuna.

Molded Vegetables: Make Tomato Aspic. When gelatine is slightly thickened fold in 1 1/2 cups mixed cooked vegetables and 1/2 cup diced celery or shredded cabbage.

To a young lady trying to budge a budget

Oh, how pleasant and cheerful was Adeline Bing, Until she was faced by what she called 'the thing'.

(And 'the thing' was, of course, the budget she used. Which, because of high prices, was sadly abused.)

She tearfully cried that she dared not make fudge, Nor even a cake—" 'cause the budget won't budget!"

"Just you wait! all's not lost," Reddy Kilowatt said; "Let's look at one item on which you're ahead."

Then he showed how electrical rates have come down To the point that they're now the best bargain in town.

So now Adeline's happy, 'cause she can recall That there's ONE budget bargain in spite of it all!

STAR REPORTER

Admission prices afternoon and evening, unless specifically advertised to be otherwise—Children: Est. Price .17, Fed. Tax .03, TOTAL 20c; Grade and High School Students 12 years and over: Est. Price .40, Fed. Tax .10, TOTAL 50c; Adults: Est. Price .50, Fed. Tax .10, TOTAL 60c. Every Child occupying a seat must have a ticket.

Sunday shows continuous from 1 p m. Phone 1472 for starting time of the different shows. All programs except Sunday start at 7:30 p. m.

Friday-Saturday, March 16-17

LIGHTNING GUNS
 Charles Starrett and Smiley Burnette in a Durango Kid western with music.

PP&L electric rates are low! Yes, in spite of rising costs of almost everything else you buy, the average price paid for Reddy Kilowatt's services is 40% lower than in 1940. During the same period, other costs of living have gone up more than 80%.

PP&L rate cuts since 1940 have meant total savings to customers of more than 18 million dollars. No wonder people here say: "Electric service is the biggest bargain in the budget!"
