Balanced Separation

Balanced Separation means a perfect size and capacity relationship exists between all units of the combine for complete control of grain and straw through every step of harvesting. Cutter-bar, feeder, beaters, rasp-bar cylinder, straw walkers and shoe... all are co-ordinated to give unmatched separation at higher speeds than ever before. All this goes on within the machine, but you'll see the results in more grain... cleaner grain... more work done in less time.

Come in and get acquainted with the Massey-Harris Self-Propelled. Let us show you what Balanced Separation means.

## STAR REPORTER

It had to happen! We have been hoping to avoid an increase in admission prices in spite of all operational expenses continually climbing but bang! Up went our rent and that was the straw that broke the camel's back. The new prices will be: ADULTS: Est. Price, 58c, Fed. tax 12c, TOTAL, 70c; STUDENTS: Est. Price 38c, Fed. Tax 12c, Total 50c. CHILDREN: Est. Price 17c; Fed. Tax, 3c, Total 20c. (The Student Rate is a special favor granted to this age-group by the theatre owners who must ppay the adult tax on it. In this case the theatre loses two cents per students ticket with the adult increase. Conditions will determine whether we will be able to continue this special student rate.)
