### GERM WARFARE

Civil defense plans will include the possibility of biological or germ attacks, the state board of health reports.

The goal of an enemy who intentionally spreads germs would be to cause incapacitating illness rather than extensive fatalities, according to an article in the American Medical Journal by Dr. Victor H. Haas, just published and quoted by the state health board.

One of the principal routes which would be used to spread germs would be the air, although drinking water, milk and other foods. Drugs, cosmetics, money, papers are also methods of dissemination.

Our physical senses alone would not be able to tell us that germs are present.

This would tax medical, health and economic facilities to a great degree. The effectiveness of our industrial plants would be sharply curtailed when employees failed to report for work and serious handicaps would result if key individuals died or could not report for work.

### MORE LAWS SIGNED

During the past week Governor Douglas McKay signed bills with the following report:

A claim of refund for taxes must be filed within six years.

Tax rolls shall contain the true cash value of each parcel of land assessed, excluding all buildings, structures, improvements and timber; the true cash value of all buildings, structures and improvements assessed.

The penalty for delinquent payment of corporate excise taxes be reduced for non-intentional violators and increased for wanton violators by the addition of 25 percent of the delinquency as a penalty.

The \$1900 annually paid United Spanish war veterans shall be paid in quarterly instalments.

Protection of veteran who is unable to renew his commercial fishing license in order to hold location of fish traps.

Whenever the signatures of the governor or secretary of state and state treasurer are required on bonds, other than obligations of the state, the facsimile signatures of any two of them shall be equivalent to their autographs.

For the establishment of state forest camps for penitentiary inmates employed at camps in Tillamook burn.

### REAL ESTATE MEN WARNED

Real estate dealers must do a better job of public relations in order to save their profession and the nation from socialism, Willard J. Johnson, a high official in the National Association of Real Estate Boards told 200 real estate dealers assembled at a convention banquet in Salem this week.

He said government restrictions were hampering the real estate trade by red-taping building efforts. For success in their business Johnson advised real estate men to know their business, assist in community projects, take advantage of small opportunities, assume a proper attitude toward the public and others in their business and to advertise.

## Display Old and New Tickets

It would seem that if Warner Brothers Star Dennis Morgan

were a gentleman, he would play the "heavy" by holding the traditional "mile long" railroad ticket and let vivacious Virginia Mayo Display Union Pacific's new dollar bill-size ticket booklet. The railroad recently began sale of the simple and abbreviated ticket as a convenience for travelers.

### CONGREGATIONAL-CHRISTIAN Church—Lexington

L. G. Wetzel, Pastor  
Too many of us have been inculcated with small doses of Christianity which keeps us from catching the real thing.—Dr. Leslie Weatherhead.
