### To a Happy Home (that talks)

"Of course I can talk," said the cheerful Cape Cod. Though people might think that our chatting is odd."

At that, Reddy Kilowatt chuckled with glee. (A house that converses is something to see!)

"Answer this," queried Reddy. "You seem to have pride. Could that be because you are happy inside?"

"Indeed and quite so," was the Cape Cod's reply, "There aren't many homes quite as happy as I."

"The reason is simple: e-lec-tricity Is busy from attic to basement for me."

"Yes, Reddy, your low-cost assistance and speed Brings all of the pleasure a Cape Cod could need."

PP&L electric rates are low! Yes, in spite of rising costs of almost everything else you buy, the average price paid for Reddy Kilowatt's services is 40% lower than in 1940. During the same period, other costs of living have gone up more than 80%.

PP&L rate cuts since 1940 have meant total net savings to customers of more than 18 million dollars. No wonder people here say: "Electric service is the biggest bargain in the budget!"
