SAFEGUARD
their Condition
with
LARRO

... and get Top Production
Top Profits too!

You can't get sustained milk production... nor top profits... from your cows unless they're in top condition. To safeguard their condition, they need the full nutrient balance that Larro Dairy Feed provides. It builds strength and vitality... it helps cows develop husky calves and produce their full inherited capacity of profit milk. Thousands of actual Herd Check Profit Records prove that Larro, fed the Larro Way, pays a handsome profit over feed cost. Let us show you how to get these extra dollars from your cows.

Sea Lion Caves on highway 101 in Oregon are said to be the only mainland sea lion rookery in the world, and several hundred of these mammals make it their home throughout the year. Sea lion pups weighing 30 to 40 pounds are born singly during

May and June at Sea Lion Caves on the Oregon Coast highway. The Oregon Vortex, off US highway 99 near Gold Hill, was known originally as forbidden ground by the Indians, but now is visited and wondered at by thousands of people annually.

How to make good telephone service even better...

- give the operator
- 1 town you're calling
 - 2 number you want
 - 3 name (if your call is for a specific person)

Faster Long Distance service Maybe you never if you place your call like this thought of it this way, but you can help your Long Distance operator save your time if you give her your call like this: First, the name of the town you're calling. Then the telephone number. And finally the name of the person you're calling—if it's a person call. You'll find this tip particularly helpful these days when Long Distance lines are busy carrying the calls that are aiding our military forces and our industries to build the nation's strength.

Have you started keeping a handy out-of-town number list? You'll find you can save considerable time in completing Long Distance calls if you give the operator the number you want rather than just the name and address. That way, you see, you won't have to wait while she calls "Information" in the distant town to get the number you're calling.
