

Glorify Budget Meals With Ice Cream

It's very comforting in these days of soaring meat costs and the search for budget main dishes to know one favorite old American stand-by is as wonderful, nutritious and economical as ever. We refer to ice cream, of course. No matter that meat portions are smaller and less choice; the meal ends in splendor when there's ice cream for dessert. If you buy it at your super market pre-packaged in the pint or half-gallon carton, you'll find the cost per serving right in line with your budget plans. And it goes especially well with the fresh fruits so abundantly available now. For a real, thrifty treat, serve pre-packaged ice cream with cantaloupe, blueberries, raspberries, peaches or applesauce.

Panorama for Painters

Out of the misty, purple depths of Grand Canyon of the Colorado in Arizona rise varicolored mountains more than a mile high. This panorama from the north rim shows the view summer vacationists receive of the age-old efforts of erosion which is a challenge to an artist's skill. On the very edge of the north rim comfortable accommodations at reasonable cost are provided in cabins and Grand Canyon Lodge.

From where I sit... by Joe Marsh

Might Say The Birds Got "Nettled"

Had dinner with Tik Bradley the other day, and over a frosty bottle of beer I found out about his job with the U. S. Fish and Wildlife Service.

"Now just exactly what do you do?" I asked him. "Shoot birds with a cannon" he calmly replies.

Seems they actually do use a cannon—to shoot out a net over a flock of birds feeding on the ground. The birds start to take off at the sound of the shot, but the settling net brings them back to earth. Then they're banded around the leg so more can be

learned about their migratory habits. Afterwards, they're let loose—and everyone's happy.

From where I sit, it was a good example of how when you learn the real facts they're often not as bad as they may sound at first. Like with people. Get to really know your neighbor and chances are you'll be more tolerant of his preferences—even though they're not your own. Take a good look, before you jump to conclusions.
