Ione Has Grange Conference

By Echo Palmateer
The State grange officers conference was held at the grange hall Saturday afternoon with all granges in the county represented. Instruction classes were held in the masters and agriculture group, in the secretary and treasurer group and in the youth group. These classes were conducted by the staff officers. They were Elmer McClure and Mrs. Bertha Beck of Portland, Mrs. Beulah Moore, lecture, Oregon City; Mrs. Lucy Case Gruetzmacher, H. E. C. chairman of Corvallis, Mrs. Naoma Clark, Youth chairman from Grants Pass and Verne Lantz, State deputy from Bend. Mr. Gruetzmacher was also present.

A booster night was held in the evening and the following program was given: Tableaux by the grange, Tumbling by the school children under the direction of Mrs. Maureen Nelson, high school instructor; vocal solo by Linda Halvorsen; readings by Judy Sherer and Arleta McCabe; saxophone duet by Janet Howton and Malcolm McKinney accompanied by Mrs. L. L. Howton; and an address by Mr. McClure. A pot luck dinner was served at noon and in the evening Mr. McClure was the only state officer that remained for the evening, the others visited booster night in other granges in the county.

Mrs. Hershall Townsend attended a bridal shower for her niece, Mrs. Dwight Townsend at Hermiston Saturday.

Mr. and Mrs. Louis Ball and children and Mrs. Donald Ball and children spent Sunday with Miss Betty Ball in Hermiston.

Mr. and Mrs. Ernest Heliker received word that their son-in-law Jerry Bolamn of Bakersfield, California is recovering from injuries received in an accident when he was hit by a car while walking across a street. He received a fractured right wrist and a cut on his left leg that required 25 stitches.

Oscar Peterson is home from the Emanuel hospital in Portland.

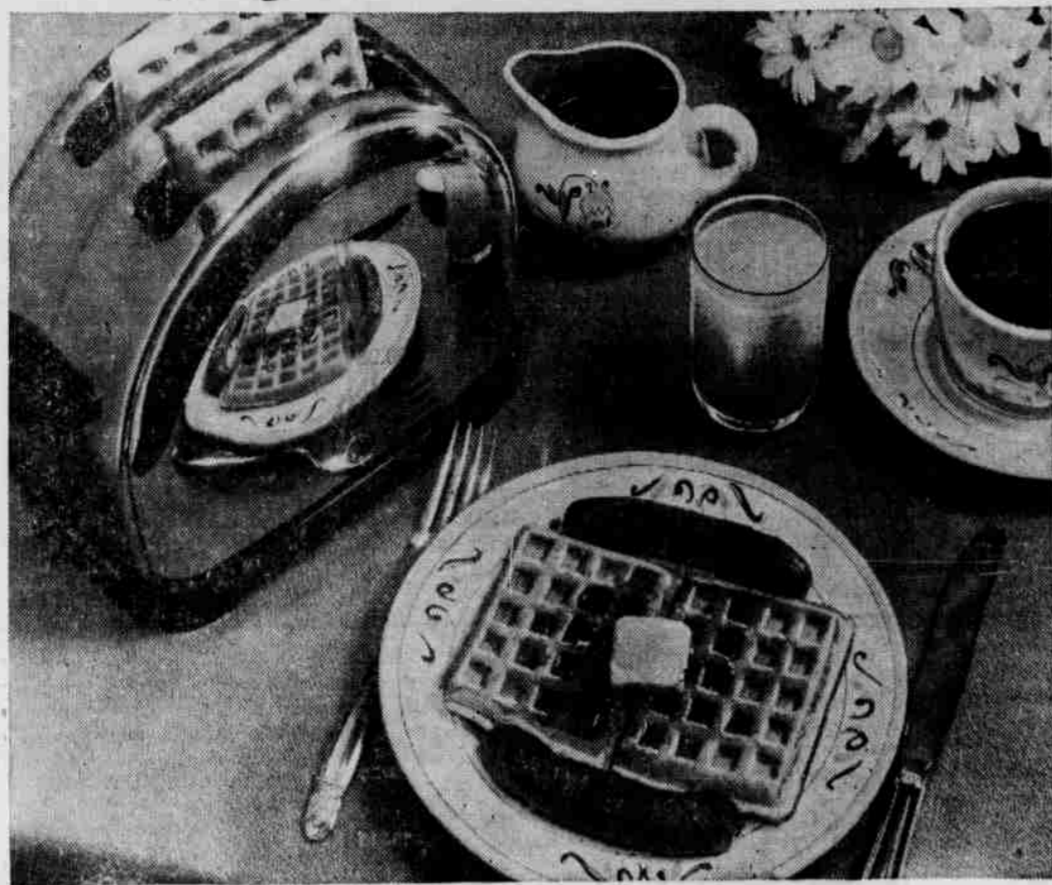

Keith Rea, son of Mr. and Mrs. Clell received a broken collar bone while playing at the school one day last week.

Mrs. Gordon White and son Charles left Sunday for Portland and Forest Grove.

Among those going to The Dalles last week were Mrs. Ida Coleman and Mrs. Echo Palmateer, Mr. and Mrs. Ernest McCabe and daughter, Pamela.

Mr. and Mrs. Ted Palmateer and daughter, Janet were Pend-

Freezing of Waffle Now Perfected

One-minute in toaster is all that is required before serving.

A perfected frozen waffle, with the ingredients, taste and texture of the home-made kind, now has come to market.

After months of research the makers, Snow Crop, discovered the method of producing a palatable waffle which could be stored indefinitely in a freezing compartment, yet would not require defrosting before being heated for serving.

The waffles are made from a batter of flour, eggs, baking powder, milk, sugar, salt, vanilla and vegetable shortening that is cooked until 90 percent done. They are ready to serve, hot and crisp, after being heated in the toaster for one minute.

They come in a box which has a "window" to show the six waffles packed inside. The key to the attainment of the standard crisp texture after toasting rests

in the moisture retained by these packages during the freezing process.

This new waffle was tested on housewives in selected areas. Acceptance was immediate, one small neighborhood store, for example, selling ten cases in twenty days. Now, they are available nationally, ready to be stored in a freezing unit; then to be served after the minute's "warm-up" in a toaster.

leton visitors last week. Wallace Coleman left Monday to join the U. S. Navy.

It has been reported that Nolan Page who is in military service in Japan has been ill. He is the step-son of Laxton McMurray of Salem and a former resident here.

Mrs. Lee Howell is reported to be ill at her home in Portland and would appreciate cards or letters from friends. Her address is 708 S.W. 112th Portland. Word was received later that she had returned to the Emanuel hospital in Portland.

Elmer West has moved to Pendleton. He spent the weekend here.

Mrs. Walter Corley entertained at a Standley party Monday evening and Mrs. John Eubanks had a party Tuesday.

Gerry White, son of Mr. and Mrs. Gordon White, has four Shell Parakeets in a cage in the window of the White home on main street. The color of the birds are cobalt blue, yellow, green and azure blue. He has a little play ground set up in the

cage. The male bird has a bright blue band across the bridge of the nose and the female has a brown band. Parakeets do not build a nest, but lay their eggs on the floor of the cage, Gerry also raises chickens and flowers.

Additional news on the Garden Club Flower show held October 7 is prizes won by the junior division. In the low flower arrangements, Jean Martin won 1st, Ralph Martin, 2nd; Gerry White 3rd and Lona White 4th. In the tall flowers, Melvin Martin won 1st, Leeann Padberg, 2nd and Alesia Swales the sweepstakes. Leeann and Gerry also won blue ribbons on the open class table. Judges at the show were Mrs. Maude Casswell of Heppner, Mrs. Harry Andrews of Hermiston and Miss Alma Rhoman of Pendleton.

Mrs. Earl McCabe is spending this week in Portland.

Bob and Roy Dill of California gave an archery exhibition at the school house Monday afternoon. Mission meetings are being held at the St. Williams Catholic Church this week.

Bradley Fancher of Heppner, District attorney of Morrow county, gave a talk on courts at a Topic Club meeting at the home of Mrs. Vernon Troedson Friday of last week. Refreshments were served by Mrs. Adon Hamlett, Mrs. Norman Nelson and Mrs. Troedson.

Miss Ingrid Hermann who is attending business college in Spokane spent the week end with her parents, Mr. and Mrs. G Hermann.

Mr. and Mrs. W. H. Leng of Fort Devins, Mass., were visitors at the Creston Black home last week. They were enroute to California and from there will go to Japan where Sgt. Leng will be on duty.

Other visitors at the Black home were Mrs. Helen Herring and Mr. and Mrs. Earl Pierce of Aloha. Mrs. Herring returned home but the Pierces remained to

panied her to Portland.

Mr. and Mrs. Elmer Peterson were guests at the home of his sister, Mrs. Walter Dobyns last week.

Mr. and Mrs. E. L. Rairdon of San Leandro, California were visitors of Mrs. Brace last week.

Mr. and Mrs. Melvin Barthel of Blaine were guests at the DeBondt home last week. They went on a hunting trip.

Mr. and Mrs. Bill Hamer and family of Portland stopped at the Ernest Heliked home on their way to the mountains to do some hunting.

DATES TO REMEMBER—

Oct. 19, H.E.C. of Willows grange at the grange hall.

Oct. 20, Rummage and food sale by the Eastern Star at the Legion hall at 2:00 p.m.

Oct. 20, Grange meeting at 8:00 p.m.

Oct. 24, P.T. A. meeting at 8:00 p.m.

Oct. 26, Three Links meeting at the Wallace Matthews home. Several of the officers and members of the Eastern Star attended a meeting in Pendleton Tuesday evening of last week.

The teachers of the Ione schools visited McNary dam Thursday of last week.

\$285 was taken in at the dinner and bazaar given by the Maranatha club at the grange hall Saturday evening. A blanket was auctioned off which brought \$39 and received by Mrs. L. L. Howton. Pillow cases, aprons and cakes were also sold by auction. The dining tables were decorated with fall flowers and pumpkins. Sue Coleman, Judy Howton, Mardene Baker, Dorothy Dobyns, Billy Seehafer and Bonny Crum waited on the tables.

Mr. and Mrs. Henry Osibov and children visited relatives in Hood River and attended the Oregon-Washington game in Portland. Mr. Osibov attended the school ad-

do some hunting.

Among those from here who attended the Oregon-Washington game in Portland were Mr. and Mrs. John Eubanks, Mr. and Mrs. Pete Cannon, Mr. and Mrs. Milton Morgan, Mr. and Mrs. Adon Hamlett, Mr. and Mrs. C. E. Brenner.

Mrs. Mary Swanson accompanied her son-in-law and daughter, Mr. and Mrs. Elmo McMillan as far as Portland Monday and will go on to Seattle to visit relatives.

Mr. and Mrs. Franklin Lindstrom and sons and Mr. and Mrs. O. E. Lindstrom are visiting in Portland and Boring.

Guests at the David Rietmann and Mrs. Etta Bristow home over the week end were Mr. and Mrs. Walter Swenson, Mrs. Duane Hershall, Mr. and Mrs. Robert Swenson, Mr. and Mrs. Robert Atkinson, and Mr. and Mrs. Rolland Wade all of Walla Walla, Washington. They attended the Bristow-Hisler wedding in Heppner Sunday. Several from here attended the wedding.

Mrs. Ida Coleman received word that her son Wallace is stationed at the Naval Base at San Diego. Jack Ball is in the navy there, also.

Mr. and Mrs. Cleo Drake received word that their son, Robert is Tokyo. He is in the army.

Mr. and Mrs. E. R. Lundell are spending a few days in The Dalles.

Mr. and Mrs. C. W. Burton spent the week end at the home of her mother Mrs. Lana Padberg. Mrs. Burton is remaining with her mother while Mr. Burton went to Billings, Montana to move the household goods to Portland.

Mrs. Harry Yarnell is leaving for Portland Tuesday to spend a few days.

Mrs. Earl McKinney is with her father, Oscar Ruggles in Rochester, Minn. where he will undergo a major operation.

Mrs. Bert Mason of Oak Grove was a guest at the Sam McMillan home last week. Mrs. McMillan and Mrs. Fannie Griffith accom-

Tissue Testing For Fertilizer Use Progresses

Progress is being made to confine fertilizer application recommendations to a more exact science.

Most farmers today let experience or "the neighbors" be their guide, figuring oftentimes that if a little fertilizer is good, more is better. That's wasteful, say soil scientists like Dr. R. A. Pendleton of Oregon State college. Too frequently this type application fits neither soil nor growing crop need.

Comparatively few farmers as yet make use of soil tests. The test, a chemical process, is a useful tool which allows a research man to get a quick look at what is lacking in a farmer's

ministrators conference in Salem the first of the week.

Guests at the John Bryson home over the week end were Mr. and Mrs. Leslie Rounly and children of Kennewick and Earl Padberg of LaGrande.

Mr. and Mrs. Tony Nichols and family of Odessa, Washington, were guests at the Ray Hiembigner home over the week end.

John Bristow, Bill Hubbard and Roger Kincaid, students at Oregon State spent the week end here.

soil. Yet soil within a single field may vary considerably and this makes sampling difficult. It tends to reduce accuracy.

What next? Test the crop itself, says Dr. Pendleton. This process is called tissue testing, and while more exacting, exponents of this process are quicker to point out that some crops require more of certain plants than do others. So it will take time, years maybe, before enough information and experience is backed-logged to make fertilizer rate recommendations on many crops using this method.

Tissue testing, in the meantime, must feel its way along by trial and error.

Some plant food deficiencies are readily apparent to the naked eye. You have given a shot of nitrogen to a sickly house plant, for example, and watched it regain its normal, healthy green color. It would be simple if all plant food needs were as easily recognized. Unfortunately for the soil scientists, they are not.

Far ahead of the tissue testing parade are sugar cane growers in Hawaii. It is estimated that 50,000 acres of their crop are being grown and fertilized solely on the basis of tissue tests. It's a field which will expand considerably in coming years, soil scientists believe.

We're stretching our available supply of metals and other critical materials by every means science can devise.

MORE STRENGTH FOR OUR NATION

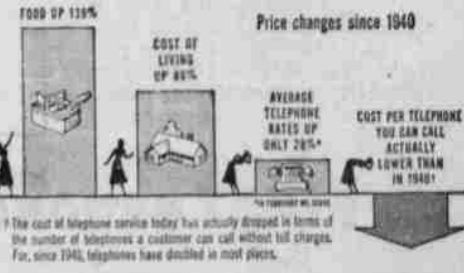

How we're saving the materials our country needs for defense

1. Copper for cables and wires...rubber for insulation...aluminum for dials—the telephone system requires vast amounts of the materials which are also badly needed by other defense products. Naturally, since the telephone is such an important military and production tool, we get a quota of these materials. But to keep building a strong communications system, we must conserve in every way we can.

2. Scientists are at work on this task...in telephone laboratories and manufacturing plants. By substituting other materials for critical ones, by discovering ways to use smaller amounts of the shortage items, they've come up with some amazing savings. It's estimated that, in 1951, the Bell System will save 2,700,000 pounds of rubber, 3,250,000 pounds of copper, 210,000 pounds of aluminum—to name just three.
