

**Truck Drivers Trained For First Aid**

If you have an accident the chances are it is a Red Cross trained truck driver who will come to your aid. The driver of the big stainless steel trailer shown has seen a motorist who has fainted at the wheel. In a moment he has him in the grass beside the road and rendered the first aid dictated by his training.

The Fruehauf Trailer company has worked out a standard first aid kit with which many drivers are equipped. Listed are the contents of this kit—information which would be of value to every household. This kit has been worked out by expert safety men to handle all common emergencies. The contents are as follows:

- (a) Weatherproof case (b) Tourniquet (c) Triangular bandage to make slings and bindings
- (d) Bandage compress (e) Iodine swabs, capsules of disinfectants and antiseptic with applicator attached
- (f) Tubes of burn ointment (g) Ammonia inhalant (h) Forceps (i) Band Aids.
