

**WORLD DAY OF PRAYER TO BE OBSERVED IN HEPPNER FEB. 29**

Friday, February 29th, has been designated as the World Day of Prayer with the local service to be held at 2 o'clock in the afternoon at All Saints Episcopal Church. The theme for 1952 is "Christ, Our Hope." The program comes from the migrants, sharecroppers and Indians of the United States and those who live close to the earth in other lands.

The observance of a World Day of Prayer began in 1887 when Mrs. Darwin R. James, President of the Woman's Board of Home Missions of the Presbyterian Church in the United States called on all Presbyterian women in the country to gather in their own communities on a specified date to pray for home missions. The response was so great that a day was set apart annually. In the early nineties, under the leadership of two outstanding Baptist women, Mrs.

by the Council of Women for Home Missions and the Foreign Missions Conference of North America jointly. Missionaries spread the idea of a day of prayer and at the request of many friends in other lands, it became a World Day of Prayer in 1927.

The offering is divided equally between the Division of Foreign Missions and the Division of Home Missions who allocate it for interdenominational work as follows: Division of Home Missions gives part of its funds toward christian education in 13 government schools in the United States and Alaska; training of native Indian Christian leaders at Cook Christian Training School, Phoenix, Arizona; church and community work among Indians in industrial centers. The remainder is used for religious, health and educational services among the sharecroppers, especially Negroes, of the south and migrant agricultural families in twenty-five states.

The Division of Foreign Missions provides religious and educational services for natives in India, Burma, Japan, Egypt, Africa, China and Latin America.

The service is public and all are welcome to attend.

**PROCLAMATION**

WHEREAS, it is recognized by Christians everywhere that many problems confronting us today can be solved only with the help of Almighty God; NOW THEREFORE, I, J. O. Turner, Mayor of the City of Heppner, do hereby declare Friday, February 29th, as a day of prayer, and that as we pray in our homes, or as we gather together in public, we remember the needs of our country, before God, the Ruler of the universe.

J. O. TURNER,  
Mayor of Heppner.

Henry W. Peabody and Mrs. Helen Barrett Montgomery, a day was designated for united prayer for foreign missions. For many years home and foreign mission groups observed days of prayer separately, but in 1919 they came together. In 1920 the women of Canada joined them when the first Friday in Lent was chosen as the day of prayer for missions, home and foreign, and promoted

**Slipper Chair Workshop Attracts 28**

The Preliminary Slipper Chair Workshop was well attended on Tuesday, with each community well represented. Twenty-eight women registered for workshop.

The two and a half day workshop is scheduled for March 3, 4, and 6 to be held at Lexington in the Rebekah hall.

Each person interested in making a slipper chair, occasional chair or side chair for dressing room, living room brought a chair to the meeting.

Maud C. Casswell, County Home Demonstration Agent, discussed equipment and materials needed for the workshop— suggestions for types of material and trim for each chair was given by those present. Mrs. Casswell suggested the use of durable material and that this is very important, since an upholstery cover is expected to last for some time, it is wise to select a fabric that will wear well. Avoid loosely woven materials and weaves with floating threads since they tend to snag easily. Materials of medium weight are usually preferred for upholstery.

Figured materials, used against plain walls, semi-plain rugs and draperies make interesting accents in the room. One general rule to remember when deciding whether the upholstery is to be plain or figured, is to place plain things near or against figured backgrounds and figured things on or near plain areas. Avoid too much figure for it brings a feeling of unrest and lack of order into the room.

**How To Stop Fuel Spillage With Funnel Made From Can.** A farmer friend who fills his tractor with bucket with Standard Diesel Fuel showed us the funnel drawn in the diagram. It was soldered together from a 5-gallon can. Slanting baffles stop fuel from slopping over the sides.

He keeps a rag in the funnel when it's not used—as rag is pulled out it cleans off injector-wrecking dust and grit that might collect.
