#### A Sewer Plan is Started

The engineers have given their report on what they expect a sewer system and disposal plant to cost the city of Heppner. Now, after some of the details are ironed out by the city council, the people will be called upon to express their opinion of the plan at the polls when they will vote on a bond issue needed to finance the construction.

Every resident of Heppner should make it a point to acquaint himself with the proposal and this paper will make every effort to present the plan, and its costs and benefits, as fast as it unfolds. You are going to be called upon to say 'yes' or "no"-which in effect means you do or you do not want sewers. We feel that most residents know that they are necessary for the continued health and growth of Heppner-we think they will vote "yes" when the time comes.

The people who are going to pay the bill certainly should know all the facts about the plan, how it will aid them, and many other questions, and we are glad to hear members of the council state that they plan to call one or more town meetings to explain the program and to answer questions that are certain to be raised regarding it. It is everyone's duty, and to everyone's interest to be present when those meetings are called-it is your surest way of finding out what you are going to get and how you will have to pay for

The council needs your help and your support in this undertaking for it is a big project that vitally effects all of us. Local initiative has played a big part in getting the sewage system project under way, but the state sanitary authority has also practically delivered an ultimatum to the city to do something about it to eliminate stream polution in Willow creek.

Council members still have many problems to work out, principally in the financing of the project, for the engineers plans and estimates are just the beginning. As they are solved we will make every effort to present them in understandable language, but when the dates are set for the general discussion meetings, mark them on your calendar-you should be there.

### Mailboxes All Look Alike

We made the suggestion this week to the chamber of commerce that it could aid the general public greatly by urging the erection of additional road signs throughout the county. There is a follow-up to that, however, that we would like to suggest here-something that won't cost anyone much if any money and would take but very

We would like to urge residents in the rural areas to paint their names on their mailboxes.

Many oldtimers who have spent a good share of their lives here and who know exactly where ach and every family in the county lives will proall of us are old-timers-in fact there are quite a sponsers of 4-H Clubs.

We have taken several trips on roads throughout the area to acquaint ourselves with lensburg, took Grand Champion the country, but we can't find out who lives on its with his bull, Brumode 14th. Bemany roads because not more than one mailbox ing nosed out for Grand Chamout of ten has a readable name on it.

We don't think our farmers have anything to the quality Herefords bred by hide, nor are we asking for any fancy lettering Kirk and Robinson, their reserve jobs. Just the name dobbed on in some left-over bull bringing \$2000 to beat the barn paint would serve the purpose admirably grand champlon selling price by and would certainly help us newcomers find our \$250. A second bull consigned by way around.

### 4-H Recognition

March 1-9 is National 4-H club week. It is be ing observed by more than 26,000 Oregon boys and girls who are learning to be better citizens through 4 H clubwork. They join two million other 4 Hers in this country, Alaska, Puerto Rico and Hawaii in the slogan for the week Serving as Loyal Citizens Through 4-H.

All are learning better ways of doing things the meaning of responsibility- Cooperation-Thrift-Piety-and hard work. They're learning o understand people of other nations through heir International Farm Youth Exchange.

4-H Club work is succeding with the help and guidance of local club leaders. Oregon's three thousand-Morrow County's forty five men and women volunteer countless hours of their time to 4-H. They are among Oregon's and Morrow County's most valuable public servants. They help America when they help the youth of America erve as loyal citizens.

How are they helping in Morrow County's They are-in addition to molding boys and girls lives as better citizens-teaching them to make better use of time. They are guiding 322 boys and girls through project work to be better cooks, seamstresses, livestock managers, to conserve soil and water, to knit, to care for children, to have a hobby, to properly use electricity and, L any more useful ways of living. They are leading dairy beef, sheep, swine, poultry, rabbits, soil conservation, tractor maintenance, electricity, clothing, knitting, cookery, homemaking, camp cookery, child care, food preservation and hobby clubs.

And so we observe National 4-H club week, to give people in general, parents and friends of the young people an opportunity to take a look at 4-H club work as it is being carried on in communities; to provide 4-H club members a special occasion for checking on their efforts to date in carrying out the programs they have already started. Its a "4-H Inventory" week—a "4-H Get Set" week. It for 19 of the violations. nelps to insure a high percentage of project comit the minimum hourly wage was meeting. ### They Do "Give A Hoot" For Easy

Easy Roberts finally got rid of the noisy pigeons that used to whoop it up under his eaves.

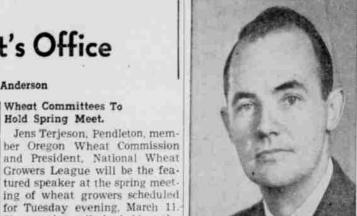

He must have tried a dozen ways to scare them off. But no matter what he did, they would be right back cooing by his window the next morning.

Then Easy thought of an old stuffed owl he had in his attic. He propped it on the roof so's all the pigeons could see it. They left ... and three hoot owls have taken their place. Easy swears the hooting is even worse than the cooing of the pigeons.

From where I sit, quite often a "bright idea" will turn out to be "not so bright" after all. That's why we should never be too cocksure of our ideas and opinionsbut always try to keep an open mind. I believe a refreshing glass of beer is the best thirst-quencher - you may believe differently. But who's to say one's right and the other is wrong? Let's just practice tolerance. It'll save a lot of hootin' and hollerin'.
