

National 4-H Week Being Observed in Morrow County

Reports Given Club Activities

Editors Note: As part of the observance of 4-H club week, leaders have urged all club reporters and their news to the Gazette for this week. As can be seen below, the response from the clubs was excellent, though boys slipped slightly in reporting their activities. The reports are being printed largely as written by the club reporters, and though they may not be professional finish, they do an excellent job of telling what individual groups are doing. Reporting is a part of their training.

Throughout the county there are 125 boys and 197 girls engaged in this work under the direction of 45 leaders. Total value of many projects owned and used by Club Members during 1951 totals nearly one and a half million dollars and they have saved over \$72,500 for livestock auction sales at the Pacific International livestock exposition at the state fair.

While the activities and projects of the girls clubs may not have such a high monetary value as the boys', they include a variety of subjects as can be seen from the individual stories below.

JOLLY CHEFS
 On February 24, 1952 the Jolly Jesters met in the lunch room of the home school. All of the girls had made apple crisp. During the meeting we talked of what we were going to do for the P. T. A. during National 4-H Week. We decided to serve refreshments for the P. T. A. members. We will have apple pie with whipped cream. Our president will choose the cups to serve, pour coffee, and clean up.
