## REPLANTING STARTED THIS WEEK ON OLD WILLOW CREEK BURN

Twenty thousand young pine trees will be planted in the Old Willow Creek burn on the Heppner Ranger District of the Umatilla National Forest this spring according to Forest Supervisor C. M. Rector.

A planting crew of 5 men under the supervision of Kenneth Keeling, timber management assistant on the Heppner district, started planting trees Wednesday morning on the old Willow Creek burn which covered an acreage of 20,000 in 1928. Previous tree plantings on the burn total approximately 35,000 trees. About 10 days will be required to plant the 2 year old ponderosa pine

seedlings which were raised in the Forest Service Nursery at Bend, Oregon.

Tree planting on timber land that is inadequately stocked with young growth is a part of the Forest Service program of maintaining National Forest lands at maximum productivity from the standpoint of watershed, timber and forage.

## 5-County School Meet At The Dalles Saturday

General school problems and principles involved in school measures that will be on the ballot in the November election will be discussed Saturday at five-county Citizens Educational conference to be held at the civic auditorium in The Dalles. The conference will be under auspices of the Oregon Education association and Oregon Congress of Parents and Teachers.

Educators, school board members and all other persons interested in educational problems will be welcome to attend both the morning and afternoon sessions of the conference, but should have reservations for the noon luncheon to be served at the Community room.

# FORD WINS AGAIN!

## TAKES FIRST PLACE IN CLASS "A"

IN THE 1952

# Mobilgas Economy Run

Ford's the Class "A" Winner for 3rd Consecutive Year!

## New Ford Mileage Maker SIX Thriftiest in its Field!

Again this year... as in the past two years... Ford was first in gas economy over all other cars in its price class in the Mobilgas Economy Run. In this toughest test, a stock model Ford Six equipped with Overdrive (optional at extra cost) averaged 53.855 ton-miles per gallon and 25.463 actual miles per gallon.

This was a very special triumph for Ford's All-New Mileage Maker high-compression Six. For now, with its new design providing 101-horsepower and free-turning overhead valves, Ford is definitely pound-for-pound the most economical low-priced car to run! Yes... Ford's thrift was clearly proved by the 1,415-mile grind from Los Angeles to Sun Valley. And a very important factor contributing to this victory is Ford's Automatic Power Pilot which squeezes the last ounce of power out of every drop of gas.

\*The AAA Contest Board determines the winner by a "ton-miles per gallon" formula. No share equal chance for all cars in each class regardless of size and weight. Ton-miles per gallon equals the car weight (including passengers) in tons, multiplied by number of miles travelled, divided by number of gallons consumed.

"Test Drive" the Economy Winner Today!
